

ARGUING IMPEACHMENT CASE
TEXAS REPUBLICAN PARTY UNDER FIRESENATE PATRONAGE
PROBE OPENED IN
TEXAS THURSDAYSENATE BROOKHART QUES-
TIONS ABOUT RAISING OF
\$100,000 FUND

SAN ANTONIO, June 27. (AP)—While federal officeholders might not be asked to contribute to a \$100,000 fund being raised by the republican organization in Texas, that campaign is a reminder to them to donate, Senator Smith W. Brookhart, Iowa, chairman of the senate patronage committee, said today while interrogating a witness in the Texas patronage investigation.

Eugene Nolte, Seguin, state executive chairman had, denied that officeholders were asked to contribute, and declared that the \$100,000 was being raised only for maintenance of the state republican organization.

"The principal business of that organization is to control the elections to national conventions?" Senator Brookhart asked.

"It is not," Nolte replied.

"And then to control patronage?"

"No, sir."

"I have been unable to discover

HOUSE REFUSES TO
RAISE LIMITS FOR
EDUCATIONAL BILLSIXTEEN AND HALF MILLION
DOLLARS LIMIT PLACED
ON APPROPRIATION

AUSTIN, June 27. (P)—The house of representatives voted to stand firm behind its conferees considering differences between the house and senate on the educational bill, instructing members of the conference committee to stand pat in their demand that the senate reduce the total of its bill to \$16,500,000. The senate was holding out for \$17,000,000. The original bills called for approximately \$21,000,000 for the senate and \$16,000,000 for the house. Representative John F. Wallace, chairman of the house appropriations committee, declared that even should the house agree to \$16,500,000 that amount would bring the total of all appropriations to \$150,000,000 more than the available revenue of the state for the next two years. He stated that the revenue as estimated by the comptroller would aggregate \$49,785,986, and that the legislature had already agreed to appropriate of \$34,037,031, leaving a margin of \$15,748,955.

MURDER-SUICIDE
ALLEGED CAUSED BY
FAMILY TROUBLE

M'ALESTER, Okla., June 27. (P)—Two men were dead today at a mining camp near Hartshorn as the result of a shooting which authorities said was the climax of a long family trouble. Bud McMullen, 30, died three hours after killing Earl Brown, 24, and turning the gun on himself.

Persons of Wealth

Dr. C. M. Pearce, county physician, said the shooting was the outcome of attentions alleged to have been paid McMullen's wife by Brown. The shooting occurred at the home of Brown's father soon after Brown was released from the Latimer county jail where he had served a term on a liquor charge. Each man is survived by a widow and one child.

LANDSKRONA, Sweden, June 27. (P)—Swans in this city are independent creatures. Some years ago a fund was started to relieve the distress of starving birds, and now there is a bank account from which money is drawn whenever crabs are needed.

Wanted Dead or Alive

This is Willie Doody, Chicago gunman, known as "Baby Face," who would be a picturesque desperado if he hadn't staged more miscellaneous killings than are decent, even for a gunman. He is charged with killing Leo Raymond, a druggist, with shooting and almost fatally wounding Postal Inspector Evan Jackson, Sgt. Clarence Falk of the County Highway Police, and a Southside Chicago restaurant man. He is accused of leadership of a band specializing in sub-station postal robberies, has staged at least three daring raids in Chicago since the police have been hunting him for the murder of Policeman Levy.

VIRGINIA REPUBLICANS AND
ANTI-SMITH DEMOCRATS JOIN
IN EFFORT TO CAPTURE STATE

RICHMOND, Va., June 27. (P)—Virginia republicans have joined forces with the anti-Smith democrats in an effort to take control of the state government from the democratic party.

Dr. William Moseley Brown, 35-year-old professor of psychology, democrat until the 1928 presidential campaign who asserted he was an "independent" in politics in accepting nominations for governor offered him by two political conventions within eight days, heads the coalition ticket. Running with Dr. Brown are Walter Dickinson, Southwest Virginia farmer and a republican, seeking the lieutenant governorship, and C. C. Berkeley, a Newport News lawyer and anti-Smith democrat, candidate for attorney general.

Brown was nominated by the republicans last night. He had previously been named by anti-Smith democrats.

C. Bascom Slomp, national committee man and for a number of years a leader of republicanism in Virginia, in his address to the convention preceding his nomination of Dr. Brown, said "the democratic party has its Smith and its Ras-kob but no longer has the South-east."

The coalition ticket will oppose democratic nominees to be chosen in the democratic primary Aug. 6.

Girl Is Drowned

When Sucked Into
Big Siphon Pipe

SAPULPA, Okla., June 27. (P)—Held fast in a 10-inch siphon pipe into which she had been sucked, Frankie Peters, 15, daughter of Mrs. Hallie Peters, Creek county superintendent of schools, was drowned last night in the municipal swimming pool here.

The girl was swimming with other girls and a chaperon. Her body was discovered wedged in the siphon soon after she was missed. Firemen were unable to pull the girl's body from the pipe and the siphon was dragged from the pool by a city truck.

Katy Would Secure
Oklahoma Rail Line

WASHINGTON, June 27. (P)—The Missouri-Kansas-Texas railroad today applied to the interstate commerce commission for authority to acquire control through stock ownership of the Beaver, Meade and Englewood railroad, 70-mile line in Oklahoma.

Control of the Missouri-Kansas-Texas, the application said, would result in material reductions of rates on certain traffic moving locally within Oklahoma.

PLANE BUILDING
COMPANY SECURES
LOVE FIELD SITETEXAS AERO CORPORATION
ESTABLISH NEW AIRPLANE
FACTORY IN DALLAS

Acquisition of a four-acre site at Love Field, Dallas, by the Texas Aero Corporation, was announced late Wednesday by Charles G. Jester, of Corsicana, one of the directors of the company, following a trip to Dallas with Roy Sanderford of Temple, one of the executives of the organization.

Plans are rapidly nearing completion for the erection of a modern airplane factory on the new site, and the new plant is expected to be in operation by December. An option on the site was secured about two months ago.

The company now has its factory at Temple, and is the first manufacturer of airplanes in the South, and is reputed to be the first builder of a monoplane in America. The plant and field at Temple will be operated in conjunction with the new factory according to the present plans.

Mr. Jester, little Jimmie Jester, and Beauford H. Jester made the trip to Dallas Wednesday morning with Mr. Sanderford in a Temple monoplane. Mr. Jester and Jimmie returned late Wednesday afternoon by plane.

Uzudun Has Slight
Weight Advantage

NEW YORK, June 27. (P)—Paulino Uzudun had an advantage of five and one-half pounds over Max Schmeling when the heavyweights weighed in this afternoon for their 16-round fight tonight.

Paulino's weight was 192 1-2 pounds, while Schmeling tipped the scales at 187.

Farmer Speeded
To Keep Porkers
Properly Cooled

KANSAS CITY, June 27. (P)—Farmer Percy Smith, brought a truck load of hogs to town yesterday and was arrested for speeding.

"Forty-five miles an hour," the arresting patrolman told the judge.

"The hogs got hot packed in like that, and I was driving that way to keep them cool," Farmer Smith exclaimed.

"Get a fan," said the judge, "you're fined \$25."

ALLEGED NEWSPAPER
MAN WAS CHOKED TO
DEATH AT LAREDO

LAREDO, June 27. (P)—Harry Williams, newspaperman, was choked to death, possibly by human hands, Dr. W. E. Lowry, examining physician, testified today in the trial of Tomas Hernandez and Raymond J. West, peace officers charged with having killed the former Muncie, Ind., youth and thrown his body into the Rio Grande.

Dr. Lowry was one of five witnesses who described the finding of Williams' body in the river 30 days after his disappearance. Dr. Lowry said there were no marks of violence, except the protruding tongue, which indicated death was due to strangulation.

The state will attempt to prove that Williams was choked to death in the lobby of a local hotel on the night of February 18, after he and a friend had refused to join the defendants on a "party."

Two Children Drown
In Creek Near West

WACO, June 27. (P)—George D. Worsky, 13, and his sister, Helen, eleven, were drowned in the waters of Cottonwood creek, near West, late yesterday when the girl fell into the swimming pool and the brother, who could not swim, attempted to rescue her.

J. L. Dworsky, father of the pair, barely escaped. Although he could not swim, he was choked to death after the children and was taken out almost unconscious, by Louis Gast, twenty, who also rescued the bodies of the children.

SEVEN DIE IN BLAST.

BRATISLAVA, Czech - Slovakia, June 27. (P)—Seven workmen were killed and ten others seriously injured in an explosion here today at a rubber factory. The factory was demolished.

Danville Man
Gets Stations
Mixed; Jailed

CHICAGO, June 27. (P)—Mr. Ben Halstead of Danville, Ill., very much in a hurry, raced into the Englewood police station last night.

"Can't wait for a ticket," he shouted to the sergeant, who gazed at him aghape.

Mr. Halstead raced down the corridor to the door leading to the cell block.

"I got a stake the 9-10," he gasped at the neatly straight-armed lockup keeper, Joe Condon, and plunged into a cell. Condon slammed the cell door shut and went out to the sergeant to inquire into this strange proceeding.

After a while it came out. Halstead, bored by Chicago, was intent upon getting back to Danville. He asked a pedestrian the way to the Englewood station. He neglected to say which station, so the pedestrian pointed out the police station.

At 11 o'clock last night Halstead started home on the Illinois Central.

"I was my fault," he told the police sergeant in parting, "I should have said depot."

DEATH PENALTY IS
SOUGHT FOR SLAYER
OF WIFE BY POISONACCUSED MAN TELLS JAILER
HE'S "GONER" WHEN RE-
PORT OF POISON MADE

BOSTON, June 27. (P)—Declaring their client could not get a fair and impartial trial in Bowdoin county, counsel for Ocie Nix, 22, charged with poisoning his wife ten days ago, filed a motion for change of venue today.

NEW BOSTON, June 27. (P)—Employing every means to obtain a delay, attorneys for Ocie Nix, 22, charged with murder of his wife by poisoning, twice heard motions for continuance overruled by Judge George W. Johnson today and then were given a recess to prepare a third motion.

Every foot of the antiquated court room here was occupied by spectators when Nix, under heavy guard, was brought before the bar. Officers had feared an attempt at mob violence.

Nix appeared wan and haggard. When informed by the jailer late yesterday that the state chemist had found poison in his wife's viscera, he was reported to have exclaimed:

"Well, I'm a goner."

Action in the case has set a record for speed in the county: Nix was brought to trial within nine days after his wife died and within six days after he made a statement to the district attorney. Vinolia, pretty 17-year-old wife of the defendant, succumbed in convulsion.

(Continued on Page 2.)

THREE WITNESSES
IDENTIFY ALLEGED
ROBBER OF BANK

WACO, June 27. (P)—Three witnesses, including a confessed accomplice, testified today that Charles Knox was one of three men who robbed the Tehuacana bank of \$1,600 Nov. 3, 1927. Two men have been convicted.

Those who identified Knox were O. D. Hallum, cashier; H. E. Nowlin, a customer; and James N. Sadler, under \$15,000 bond in connection with the robbery.

Sadler testified he waited in an automobile at the door of the bank while his three companions were inside.

Georgia Legislature
Takes Action Against
Entertaining Negroes

ATLANTA, Ga., June 27. (P)—The Georgia house of representatives today by a vote of 179 to 5 adopted a resolution declaring "we deeply regret the recent occurrences in the official and social life in the national capital which have a tendency to revive and intensify racial discord." This action came after the house by a vote of 68 to 112 had refused to table the resolution.

PRESIDENT STOPS
PLAN USE SCHOOLS
FOR PROPAGANDA

WASHINGTON, June 27. (P)—President Hoover personally intervened to halt the plans of the prohibition unit to use the public schools of the country for dissemination of prohibition law observance propaganda.

The first information concerning the issuing of a pamphlet proposing a course of prohibition study in the public schools, was gleaned from the newspapers. He immediately signified his disapproval to treasury officials, who said they themselves were unaware of the proposed campaign.

AVIATORS SEEKING
NEW LAURELS FOR
FEATS AIRMANSHIPENDURANCE, LONG DISTANCE
AND CROSS COUNTRY
FLIGHTS NUMEROUS

ROOSEVELT FIELD, N. Y., June 27. (P)—Captain Frank M. Hawks took off at 5:15 a.m. (E.S.T.) on a long trip flight to Los Angeles where he expects to stop only long enough to refuel.

He hoped to establish three records, for the round trip, for east to west and west to east. The non-stop record to the Pacific coast is 24 hours, 51 minutes established by the late C. B. D. Colyer and Harry Tucker. The west to east record is 18 hours, 21 minutes established by himself.

Colonel E. M. Roberts, representing the National Aeronautic Association, gave 5:12:51 as the official takeoff time.

The plane, an earlier plan of carrying 615 gallons being abandoned due to the additional weight making the plane too heavy. Captain Hawks said it would take him three hours to refuel and then would immediately take off again for the return trip. The plane's engine is capable of 185 miles an hour.

Making the flight alone means he will have to let the plane fly itself fifteen minutes of every hour while he pumps fuel from the main tank in the fuselage up to the wing tanks from which it will feed the motor by gravity.

The takeoff of the plane was perfect and before his departure Captain Hawks was assured of excellent flying weather along the entire route except over Missouri, where thunder showers were reported. This, however, he said would not bother him.

Flyer and Wife
After New Record

ROOSEVELT FIELD, N. Y., June 27. (P)—With his wife at his side, Major Ruiz de Alda, left Three Musketeers today was making a new record.

SWEDISH FLIER IS
FORCED TURN BACK
ON ATLANTIC HOP

REYKJAVIK, Iceland, June 27. (P)—Captain Albin Ahrenberg, Swedish flier, who is attempting a trans-Atlantic flight to the United States in his plane, Sverige, returned to Reykjavik after having earlier departed for Ivigtut, Greenland.

Capt. Ahrenberg, accompanied by Lieut. Axel Floden and Radio Operator, Robert Ljunger, left Stockholm, Sweden, on June 9 and hopped to Bergen, whence they took off for Reykjavik, Iceland.

The men came down at Skaptars in Southeast Iceland, because of shortage of fuel and some difficulty with their engines. Gasoline was sent to them and they continued to Reykjavik, their base. For the second lap of their course, which covers the route taken by the Norsemen centuries ago.

Since then they have remained at Reykjavik, making repairs to the plane, testing the machine out and awaiting favorable weather.

The flier's itinerary calls for a ten-hour hop from Reykjavik to Ivigtut. From Greenland they will fly to the North American coast, leaving to a later decision whether to stop at the Gulf of St. Lawrence or to attempt to continue on directly to New York.

GERMAN CROCCER LOSES HIS
CRAFT ON CAROLINA COAST
AFTER TRANS-ATLANTIC TRIP

CHARLESTON, S. C., June 27. (P)—The beach at Kiawah Island, twenty miles south of here today, held a battered and burned remains of the Aga, eighteen foot boat in which Paul Muller, Berlin grocer, crossed the Atlantic alone.

Her shipper, safe here after a shipwreck and night of exposure, told the story of the disastrous end of his Hamburg-New York voyage. Beating his way up the coast from Miami, where he first touched the American shore, Muller ran into storms off the South Carolina coast, late Tuesday. A squall struck the Aga, tore her sail to bits and tossed her on the rocky Kiawah shore.

"The Aga began to break up," said Muller, "so I decided to set her afloat as a signal for help. I poured what was left of my lamp's petrol over the decks and touched a match."

When no help came, he related, he began swimming. John Island, seven miles away, where he could see a house. When he had covered part of the distance, Fritz Stroebel, of Charleston, drawn by the fire from Johns Island, picked him up in a rowboat.

LARGEST AVIATION COMPANY
IN WORLD WOULD BE CREATED
BY WRIGHT-CURTIS FIRMS

NEW YORK, June 27. (P)—Creation of the largest aviation company in the world through merger of Wright and Curtiss interests was proposed to stockholders today.

Directors of the companies have approved plans for the formation of a \$70,000,000 holding corporation to be known as the Curtiss-Wright corporation. It will take over, in exchange of stock, the Wright Aeronautical corporation and the Curtiss Aeroplane and Engine corporation and 10 affiliated organizations.

The new company will bring under one head the concerns founded by America's air pioneers, the Wright brothers and Glenn Curtiss.

Allement M. Keys, president of Curtiss, will be president of the holding company and Richard F. Hoyt, chairman of the board of Wright Aeronautical, will be the chairman of the Curtiss-Wright corporation. In addition to the Curtiss and Wright corporations, the companies to be taken over are Keystone Aircraft corporation of Bristol, Pa.; Curtiss-Robertson Airplane Manufacturing company of St. Louis; Curtiss Airports corporation; Curtiss Flying Service,

SPANISH FLYERS STILL MISSING

Many conflicting rumors have not helped in finding Major Franco, left; Major Ruiz de Alda, right, and Senor Madariaga, below, Spanish aviators, who started out from Cartagena, Spain, in the giant plane "Numancia" and have not been heard from since. They intended to fly to Fayal, Azores, and from there to New York. Portuguese gunboats dispatched to locate the plane when reported missing have not found any trace of the amphibian.

GERMAN CROCCER LOSES HIS
CRAFT ON CAROLINA COAST
AFTER TRANS-ATLANTIC TRIPIrene Castle in
New Role; Dances
To Court Costs

EVANSTON, Ill., June 27. (P)—The dog fight in Magistrate Frankland's court between Mrs. Irene Castle McLaughlin and 17 year old Irving Hopkins was called a draw yesterday, although in a way it was a victory for Hopkins.

The magistrate decided that each party should pay \$3.30 to recompense the court for its time in listening to the argument over a dog Hopkins had bought for \$5 from Mrs. McLaughlin's Dog Orphanage.

Irving, after buying the dog, sold it to a pet store and bought another. Mrs. McLaughlin contended the boy had no right to take the dog unless he intended keeping it. Irving said it was the dumbest dog he ever saw, so he traded it for a good one.

OFFICER KILLED BY
PLANTATION OWNER
NEAR TEXARKANA

TEXARKANA, Ark., June 27. (P)—L. H. Simmons, Miller county deputy sheriff and a former Texarkana police chief, died last night from bullet wounds received in an attempt to arrest L. K. Pearson, Miller county plantation owner.

Working as a special range rider in cattle dipping work with three other range riders, Simmons was accosted yesterday as he and the other officers drove along the road with some cattle. A calf belonging to Pearson was among them. Pearson said he was told by telephone that his cattle were being driven off.

According to the officers, Pearson threatened G. G. Billingley, and attempted to arrest the plantation man. The shooting followed. Persons were brought to Texarkana.

BASEBALL MAGNATE
AND FLYER KILLED
IN CRASH THURSDAY

INDIANAPOLIS, Ind., June 27. (P)—A solo flyer of a few years experience James A. Perry, owner of the Indianapolis American association baseball club and president of the Curtiss Flying Service of Indianapolis, was killed in a cabin monoplane here yesterday.

The plane gained an altitude of about 100 feet after taking off from Schoen field when the motor failed. It crashed in a ravine. Perry was crushed. Colonel Charles A. Lindbergh, who arrived shortly after the accident, called on Norman A. Perry, brother of the dead man, and expressed his sympathy.

Two Men Dead,
Five Injured in
Blast At Duluth

DULUTH, Minn., June 27. (P)—Two men were fatally injured and five others less seriously hurt in an explosion and fire at the Diamond Calk and Horseshoe company. The dead were Richard Johnson, 33, and Helge Liljefgren, 26.

The explosion late yesterday is believed to have been caused when fuel from fuel oil, being transferred from a railroad tank car to tanks under the assembly room of the factory, ignited.

SECRET CONSISTORY JULY 15. VATICAN CITY, June 27. (P)—The Pope will hold a secret consistory for the creation of new cardinals on July 15 and a public consistory on July 18, it was learned today.

SIX HOURS GIVEN
OVER TO LAWYERS
IN ROBISON CASEFATE OF IMPEACHMENT
CHARGES AGAINST LAND
COMMISSIONER UNKNOWN

AUSTIN, June 27. (AP)—Not only should J. T. Robison, commissioner of the general land office, be impeached and removed from office for "high crime and misdemeanors," but he should be indicted and tried for a felony, Robert B. Allen, Sr., of Dallas, attorney for proponents of the house, argued today.

"If you give him a clean bill of health and whitewash him in the face of this record you will create an era of graft that will become a stench in the nostrils of the people of Texas and ultimately destroy this government," the attorney argued.

Reading court decisions to show the interpretation of "high crimes and misdemeanors" as "meaning no more than grave official misconduct," he said the proponents had not only proved this in "many many instances," but that he had also violated the felony laws.

"If I were district attorney he would be indicted and tried for felony," he shouted.

"I do not care if this one-cent-an-acre fund was not a public fund; it was a trust fund to be held and disbursed by him under the laws of this state," he said. "His handling of it was so reckless and outrageous that this alone ought to warrant impeachment."

There remained four and half hours of argument after Allen finished. This will be a vote before 6:30 p. m. The earliest, since the consistory recessed until 2 p. m.

Cites Law In Decision. Calling attention to a recent decision of the supreme court, E. F. Smith, opening the argument for Mr. Robison, contended that a

FAIRBANKS, Alaska, June 27. (P)—A charter has been granted a group of B. P. O. E. here, the lodge boasting of being the "farthest north" of all Elks.

LARGER TREASURY SURPLUS PROMISED END FISCAL YEAR

WASHINGTON, June 27.—(AP)—Secretary Mellon said today latest estimates indicated the government would conclude the fiscal year on June 30 with a surplus of \$160,000,000 or \$170,000,000.

This balance would be on hand, he said, after the \$50,000,000 allowed railroads for the retroactive mail rate increase had been paid.

Income tax returns for the present month up to June 24, including the second quarter's payment of the 1928 tax have totaled \$545,725,088, an increase of \$90,000,000 over the similar period of last year.

Income taxes for the fiscal year on the same date totaled \$2,321,180,412, as compared with \$2,166,600,373 in the same period of the previous year.

Customs receipts also have shown an increase this year, aggregating on June 24 a total of \$692,974,151, an increase of approximately \$35,000,000 over the same period of 1928.

CONTRACT IS LET FOR SURFACING OF ELLIS COUNTY ROAD

The following article concerning the work in Ellis county on Highway 14 appeared in the Wednesday afternoon issue of the Waxahachie Daily Light:

Announcement of the award of a contract for double bituminous road surface treatment from Navarro county line to a mile north of Palmer, 15.3 miles, to the McClung Construction company of Fort Worth for \$31,644 was received here today.

This stretch is on Highway 14, a federal aid road that previously had been built as a gravel road from Palmer through Garrett, Ennis, Ensign and on to the Navarro county line, near Emhouse.

The contract that has just been announced is for the placing of an asphalt top on the gravel road. It is the same treatment as may be found on the lateral roads in the local district.

FORD SUCCESSFULLY ENDS FIRST FLYER IN RAILROAD OPERATION; MADE BIG MONEY

DETROIT, Mich., June 27.—(AP)—Successfully terminating his excursion into the transportation field, Henry Ford has sold the Detroit, Toledo and Ironton railroad to an undisclosed group of investors believed to represent the Pennsylvania railroad.

The sale was announced yesterday by officers of the First National Bank in Detroit. Ford officials had announced Monday negotiations for the sale of the line to the Pennsylvania railroad were "almost completed."

Purchased in 1920 to round out the Ford program of controlling every step in production of his motor cars, the Detroit and Toledo and Ironton later was so renovated under the motor magnate's administration that it became a paying business.

Much of its success was attributed to the fact that its business was obtained from other roads holding Ford transportation contracts, but Mr. Ford derived a great deal of

pleasure from turning the once decadent road into a profitable enterprise, and his methods were as startling in railroad circles as were his innovations in the motor industry.

Instead of inaugurating a policy of economy he radically increased expenditures for improvements. The wage scale of his automobile plants were brought into cabs and roundhouses, much to the dismay of other railroad owners who subsequently fought him at every turn and employees were permitted to obtain certificates which have paid 12 per cent annually.

The announcement of sale of the railroad did not mention the price. Ford bought the line for \$5,000,000 but in 1924 it was learned it had earned more than \$1,000,000 a year over the four-year period of Ford administration and in 1926 before the interstate commerce commission, Ford attorneys argued the rate setting valuation of the road should be placed at \$23,061,208. The road is 529 miles long.

COURT HOUSE HAPPENINGS

District Court.

The July term of the Thirteenth Judicial District court will be convened Monday morning by Hawkins Scarborough, district judge, and a grand jury will be impaneled.

Commissioner's Court.

The Navarro county commissioner's court was still sitting as a board of equalization Thursday morning.

Superintendent's Office.

County Superintendent Andrew G. Steele announced Thursday that July 21 was the final day for the transferring school children from one district to another and that it also was the final day for the transferring of the high school tuition from one school to another and that the school patrons were urged not to overlook this matter.

Meetings will be held next week at Jester, Bell's Point, and Warren's Chapel relative to the proposed consolidating these three districts for high school purposes. Superintendent Steele stated Thursday. The meeting at Jester will be held Monday night, Bell's Point Tuesday night and Warren's Chapel Wednesday night. Superintendent Steele, members of the county school board and probably others will attend the meetings. The county board has been trying to effect consolidation of these districts for high school purposes.

Warranty Deeds.

Justice Court.

Judge S. E. Jordan assessed a fine of gaming Thursday morning.

DEATH PENALTY IS SOUGHT FOR SLAYER OF WIFE BY POISON

(Continued From Page 1)

slons a week ago last Tuesday. She was buried Wednesday and exhumed Thursday night when neighbors became suspicious at finding the Nix dog dead.

In his purported confession, Nix was said to have admitted giving his wife a poison capsule the morning of her death. He blamed "family troubles" for his act and disclaimed interest in a \$1,500 insurance policy taken out three weeks before his wife's death.

Three hundred veniremen have been summoned.

TEXARKANA, June 27.—(AP)—The state of Texas will seek the death penalty in the trial of Ocie Nix charged with killing his wife by poison, according to R. G. Walters, district attorney.

Three hundred veniremen and 100 witnesses today formed the background for the trial. Several days ago Nix was sequestered in a distant jail to avoid mob violence.

Mrs. Nix, 17, died in convulsions last week while her husband was working in a field. He was arrested, and made a statement to officers, they said. His wife's body was exhumed and the viscera sent to the state chemist at Austin for analysis. For two days, the chemist worked without finding poison, but on the third, he reported to officers that traces of poison were found in the stomach.

"I'm a goner," Nix told the county jailer last night when the jailer told of the chemist's findings. Plans of the three defense attorneys were not disclosed. Nix already had pleaded guilty, but had the right to change the plea on arraignment.

Food Inspector Is Looking For Dread Fruit Fly Here

A state food inspector was in Corsicana Thursday inspecting grape fruit in local retail stores and wholesale stores looking for evidence of the Mediterranean fly which has been discovered in Florida. No evidences of the dreaded fly were reported here.

IMPRESSIVE CEREMONIES TO MARK REMOVAL BILLY DIXON'S BODY TO SITE NOTED EVENT

BORGER, June 27.—(AP)—Fifty-four years ago today a wind-bitten plainsman, who, with 27 comrades, had been besieged for two days by a band of 700 Indians, drew a careful bead on his long-barreled buffalo gun and toppled a bronzed warrior who stood outlined, defiantly, upon a cap rock 1,200 yards away.

The remarkable accuracy of Billy Dixon on that day broke the spirit of the attacking aborigines and, in all probability, saved the lives of the little band of buffalo hunters. Medicine men had assured the Indians they were immune from white men's bullets, but Dixon's marksmanship shattered the illusion.

Today, at the famous adobe walls fortress, 25 miles from here, impressive ceremonies will mark the removal of Dixon at the site of his noted achievement. The body of the noted plainsman, who died in 1913, was escorted here by Boy Scouts of the local Adobe Walls camp. His tomb, situated within almost obliterated walls of the old fortress, is expected to become a shrine for West Texans.

From the adobe walls from all over the Panhandle many of whom assisted in burial rites for Dixon 16 years ago, will be present for today's ceremonies. Many an old-time friend and associate, who with Dixon had having saved the Southwest for the white man, were expected to pay tribute to his memory.

Details of the Adobe Walls fight have become folklore in the Panhandle. It was estimated that at least 700 Comanches, Kiowas and

Cheyennes comprised the war party that attacked the buffalo hunters.

Made brave by the incantations of their medicine men, who pronounced a charm upon the warriors that was supposed to surround their bodies with an Achilles immunity, the Indians launched some 30 charges on the first day of the battle. They were mowed down by the 28 marksmen behind the adobe ramparts. On the second day there were about a dozen assaults, with like results.

During the second night the medicine men produced their entire bag of tricks, and before dawn they assured the braves that this time it couldn't fail.

Dealing to test the efficacy of the latest charm, one of the warriors stepped boldly into full view of the beleaguered hunters three-quarters of a mile distant. He dropped, pierced by Dixon's bullet, and the chiefs decided to retire. Three defenders were killed during the two-day fight and were buried within the walls of the fort.

LEFT FOR ALABAMA

Mr. John Gools, J. P. Thompson, and son, J. P., Jr., left Wednesday afternoon by auto for Alabama and Georgia, to visit relatives. They expect to return in about ten days.

J. L. HALBERT AND YOUNG SON INJURED IN AUTO ACCIDENT

J. L. Halbert, former mayor of Corsicana, and son Josh, Jr., received lacerations about the face and hands when the car in which they were riding suddenly swerved from the road, plunged down a steep embankment and plowed its occupants underneath the surface of the water along the right-of-way. The accident occurred shortly after 9 o'clock Thursday morning near Drane when the former mayor and his son were on their way to Frost on a tour of inspection of his farms.

Mr. Halbert extricated himself from the wreckage and succeeding in rescuing his son, who was pinned underneath the car. According to the attending physician's statement, the injuries were described as being superficial with a possibility of serious injuries, as a thorough examination was impossible immediately after the accident.

Both father and son were reported resting easily Thursday afternoon at their home on West Third avenue after their harrowing experience.

It is believed something went wrong with the steering gear causing the car to strike the side of the bridge approach at the end of the concrete highway to Drane. The bridge was considerably damaged and the car was demolished. Those viewing the wrecked car and bridge express surprise the occupants escaped with their lives.

Cone Johnson to Aid Van Zandt Bond Issue Proponents

WILLS POINT, June 27.—(Spl).—Hon. Cone Johnson, member of the state highway commission, will speak at Canton July 1, in the interest of the bond issue for the improvement of the roads of Van Zandt county. The election has been ordered for July 27 to determine if \$1,500,000 in bonds shall be issued.

With over 100 miles of highway in the county there is only eight miles of concrete, being a nine foot slab from Grand Saline to Fruitvale. If the bonds are voted it is expected that most of Highways 15 and 64 will be concreted in the county.

LARGE CORN SHOW PLANNED FOR FREE STATE FAIR DATES

WILLS POINT, June 27.—(Spl).—The management of the Free State Fair are planning for the largest corn show in connection with the fair Sept. 18 to 21, ever held in this section. The premium for the best 100 ears of corn is to be a registered Jersey bull, valued at \$250 and in addition to this several cash prizes will be given.

Farmers have used much care in selecting seed corn and in cultivating the crop. It is expected that the quality of the show will be good with a large number of entries. A. K. Short, of Houston, a corn specialist, will judge the show.

CORSICANA HIGH SCHOOL GRADUATE IN EDISON FINALS

THURMAN EVANS WINS OVER STATE-WIDE ENTRIES IN SCIENTIFIC CONTEST

AUSTIN, June 25. (AP)—Thurman Evans, Corsicana youth, will represent Texas in a nation-wide contest to select an aide to Thomas A. Edison. Evans survived scientific tests given 50 boys, he was declared by a committee to be best fitted to aid the aged inventor of a group of 131 who survived preliminary eliminations and who were interviewed by the committee last night. A four-year technical scholarship offer by Edison, will be the goal of the Corsicana lad in the nation-wide contest.

Only Preparation Here With little additional preparation than that obtained in the Corsicana high school, Thurman Evans, aged sixteen, son of Mrs. W. T. Evans, 1219 West Eleventh avenue, was announced winner of the Texas Edison scholarship contest held in Austin Monday and will represent the Lone Star state in the national contest to be held in Washington later in the summer.

The state winner is a quiet, unassuming, studious lad, who has ranked high in his class since entering the Corsicana high school three years ago when his family moved back to Corsicana where he was born. From Hughes Springs, his mother stated in an interview with a Sun reporter Tuesday morning. He has had no additional preparation for the contest other than three years of science in the public schools of Texas, one year of general science at Hughes Springs in his freshman year and chemistry and physics in the local high school. He is interested at the present in aviation, his mother stated, and reads all books relative to this subject that can be procured. He was a member of the 1928 graduating class of the Corsicana high school.

Besides making excellent grades in the Corsicana high school, Thurman has been identified with a number of extra-curricular activities. During his senior year, he was a member of the Elmer C. G. staff class reporter of the D. V. club, a club for science students, and the El-Y club. He has represented the local school for two years in the Latin contest of the University of Texas Intercollegiate league held at Waco. For 2 years he was a member of the Corsicana high school football squad and is interested in baseball and tennis.

He has planned to enter the Texas Agricultural and Mechanical college in the fall, his mother stated, and enrolling in the engineering department, specializing in electrical engineering.

He is a member of the United Presbyterian church and has identified himself with the activities of the City Christian Endeavor union, being elected to the office of publicity director of the Waco district Christian Endeavor convention held here recently. His father died last year.

Thurman was en route from Austin Tuesday morning and was expected to arrive home during the day.

Negro Congressman Claims Doesn't Want Any Social Equality

OSCARVILLE, Tenn., July 25.—(AP)—Oscar De Priest, negro congressman from Chicago, declared before 1,500 negroes last night, that the white race was not to blame for the status of the negro, but that the negro would never gain equality before the law until he organized politically.

"Who wants social equality?" he asked amid applause.

"All I want for the negro is equality before the law."

Declaring that he was not in congress to put over special racial legislation, De Priest said the negro must work out his own salvation.

Pioneer Resident

Navarro County Dies

DAWSON, June 21.—Mrs. A. W. Sykes, pioneer resident of Navarro county, died at the home of her daughter, Mrs. D. E. Wiley, several miles east of Dawson, Friday of last week, and burial took place in the Brushy Prairie cemetery morning at 11 o'clock.

Surviving are nine children, 53 grandchildren and 32 great-grandchildren.

Corsicanan Winner Edison Contest

THURMAN EVANS

Thurman Evans, youthful Corsicana high school graduate, was Monday night chosen from a group of some dozen finalists in the State Edison scholarship elimination contest, to represent the state of Texas in the national contest sponsored by Thomas A. Edison to select a worthy successor to the electrical wizard and carry on his scientific work. He will be pitted against youths from all sections of the United States in the national contest.

YO-YO CONTEST BE STAGED SATURDAY MORNING BY SUN CIRCULATION DEPARTMENT

Saturday at 9 a. m. in front of the Sun office every known Yo Yo record is expected to be shattered. Only Daily Sun carrier and newsboys are eligible to compete in this competition. Cash prizes are offered and the expert Yo Yo spinners in the ranks of the circulation department have spent many hours perfecting their technique.

To enter the contest the carriers must secure three new subscribers and the newsboys must sell twenty additional papers. The prizes will be awarded to the boys spinning the Yo Yo the longest.

The cash awards follow:
Carrier boy class—
First Prize\$3.00
Second Prize\$2.00
Third Prize\$1.00
Newsboy class—
First Prize\$3.00
Second Prize\$2.00
A special prize of \$2.00 will be awarded the best Yo Yo stunt performer.

Three disinterested men will be selected from the crowd to act as judges. The prizes will be awarded immediately following the contest.

Plain and fancy Yo Yo spinning is in store for the fans Saturday.

APPROPRIATIONS EXCEED REVENUE BUT BILLS PASSED

AUSTIN, June 25.—(AP)—Unimpressed by administration admonitions that the appropriation bills already total much more than the prospective state revenue for the next biennium, the house of representatives yesterday enacted bills providing \$250,000 for the purchase of land adjoining the IAmo in San Antonio and \$500,000 with which to build memorial armories.

Representative Harry N. Graves declared that by putting on a 35 cent ad valorem levy the revenue could not be brought to exceed \$49,000,000, while the minimum aggregate of the appropriations was \$52,000,000.

The Alamo bill previously called

for an appropriation of \$1,000,000, but the house appropriations committee reduced the amount after the senate had passed it with but one dissenting vote.

The armory bill calls for the expenditure of \$250,000 in each year of the biennium, the buildings to be used by the Texas national guard and dedicated in memory of the Texans who died in the world war.

The bills could not get sufficient strength to place them on final passage, falling short of the necessary votes to suspend the rules.

HELD FOR GRAND JURY.
TEXARKANA, June 25.—(AP)—Although friends swore, at his ex-miraculous trial here, that he could not have participated in the \$8,000 robbery of the Miller County Bank and Trust Co., here last May, Paul Smith must face the grand jury. He was bound over to that body here yesterday.

STATEWIDE YO-YO CONTEST SPONSORED GROESBECK LEGION

GROESBECK, June 25.—(Spl).—Arrangements are being completed for a State Wide Yo Yo contest to be held at the annual Jacks Creek reunion, U. C. V. The Fourth of July program is in charge of the Slim Ashburn Post of the American Legion of Groesbeck. In addition to this contest a mammoth fireworks display and speaking will also be featured as well as a Boy Scout Jamboree in the morning.

Prominent Yo Yoeers from all over the state are invited to participate for the valuable prizes and honors offered. Each county in the state is invited to send a representative.

Purdon Man Found Shot to Death In Home Wednesday

DAWSON, June 21.—S. N. Davis of Purdon, 37, was killed Wednesday of last week when a gun was discharged, the load striking him in the left breast. No witnesses were present at the time, but it appeared that he was cleaning the gun.

Funeral services were held at Purdon Thursday afternoon, with burial in the Dawson cemetery. Surviving are his wife, parents, four brothers and four sisters.

The only requirement of the contest is that contestant be a citizen of Texas. There are no limitations as to age or sex. It is also planned to organize at this meet a state-wide yo yo association. Everyone interested in this ancient Japanese game should be present at this meeting.

Basket Picnic On July 4th Hamilton-Beeman Association

At a meeting of the Hamilton-Beeman Memorial Association on Thursday afternoon, plans were made for the picnic or reunion on July 4th for all who are interested in Hamilton cemetery to be held at the old Hamilton place. It is expected that Hon. Wayne Howell will speak at that time, and there will be other interesting things on the program and an old-fashioned dinner will be served on the ground. There will be ice water and cold drink and coffee. Everybody is invited to come and help, and enjoy the occasion, and to bring well filled baskets.

TWENTY-THREE GET DIPLOMAS AS STATE HOME GRADUATES **FORMER GOVERNOR NEFF DELIVERED CLASS ADDRESS TUESDAY EVENING**

Twenty-three members of the 1929 graduating class of the State Home high school received their diplomas at the annual commencement exercises Tuesday evening after hearing Hon. Pat M. Neff, former governor, deliver the commencement address in the State Home auditorium.

To the dignified strains of the processional played by Mrs. For- el, the members of the graduat- ing class accompanied by escorts from other classes marched down to long aisles to their positions on the stage. A mixed chorus under the direction of Miss Hallie K. Sadler then presented "Spring- time" by Strauss.

Declaring that full hearts and numbed lips prevented an adequate expression of welcome to the friends and visitors on the momen- tous occasion, Miss Opal Thornton took occasion in the salutatory touch upon the importance of the evening to the members of the class, and attempted to show that words were entirely inadequate for the occasion.

The graduates then sang "Fare- well" by Brahe under the direction of Miss Sadler.

Thanks Extended
Alton Mullins, first honor gradu- ate, extended the thanks of the class to the friends, teachers, and asserted that never in their entire career had their associations be- come as vivid as on the final day of their school year. Turning to his class mates, he inquired of them how they would interpret the ideals and ambitions of the insti- tution that had prepared them for life. He asserted that what the graduates were would speak loud- er than any words they might say, and that the education they had received would be the basis of their success in life.

In presenting the speaker of the evening, Superintendent J. Stan- ford Halley declared that the man had been selected because he rep- resented the highest type of man- hood, and not because he might have achieved considerable fame as an attorney and a statesman.

He briefly sketched the career of the ex-governor through his early days and on to later life as dis- trict attorney, representative, gov- ernor and recipient of national honors.

Former Governor Speaks
In his introduction, Ex-governor Pat M. Neff of Waco told the graduates that on commencement day the effervescent dreams of youth came nearest to realizations, and on their graduation night the seniors were nearest to their "Pot of Gold," for they were then happy with their achievements and filled with hopes of future successes.

Every thinking boy and girl he wanted to be a success, and that success was the aim of all persons from the budding of youth to the eve- ning of old age. Each member of the graduating class he said would set a goal for their lives and these would vary widely, and urged them to guard against making money their sole goal.

He announced his principal sub- ject as "Moneyless Millions," and immediately asked if such a person were possible or mythical. He asserted that Babe Ruth might bring a million dollars on the open market as a baseball player, and that Gene Tunney was worth that figure as a slugger in the ring.

The speaker said that he did not appreciate the value of making money, for money as a medium of exchange is a laudable ambition and everyone should make enough money to supply the comforts and pleasures of life. Money is a blessing so long as man is master

Pointers For The Efficient Farmer

(By U. S. Department of Agriculture)

Farm wages compare favorably with certain industrial wages, when allowance is made for such per- quisities as rent and food, accord- ing to the department of agricul- ture. A survey of 2,117 farm em- ployers showed that the total aver- age farm value of all perquisites was \$30.34 a month, and of wages, \$48.44, for a total of \$78.78. In terms of retail prices, this total compares favorably with wages for comparable labor in industrial em- ployment and, in some cases, ex- ceeds it.

Self-feeders for cattle fattened either in dry lot or on pasture save considerable work during the busy summer months, as they can be filled at odd times. Unless a good deal of roughage is mixed with the concentrates, it is better to prac- tice hand feeding until the cattle are on full feed. After that they are less likely to go off feed when they have access to a self-feeder 24 hours a day than when they are fed by hand once or twice a day.

During the work season the farm of it, but becomes a curse when it becomes master of the man.

Rich Without Money.
He asserted that it was possible to be rich without money if one recognizes the value of service, and did not use money as the only measuring rod. Man is a mental being he declared and the mind cannot be fed on material things.

Wealth he asserted cannot be estimated entirely in dollars and cents, for some of the finest tri- butes cannot be bought; bonds do not buy brains, nor is power useful unless accompanied by a sense of honor and responsibility.

A person whose only value is his money is a pauper, Governor Neff declared, and man's ambition should not be grabbing and getting but giving and serving.

There are many in the world who are financial successes who would give all their wealth if they could turn backward to the high school commencement and live their lives over again, he declared, and a person who trains his mind and soul is as rich as one whose only joy is clipping coupons.

The richest person in the world is the one who has the most friends and renders the highest service, the speaker declared in conclusion, and a great life is greater than life's achievements.

J. S. Callicott, president of the State Home school board, was then presented to present the diplomas. He briefly touched upon some of the high lights of the early history of the home and called attention to the recent growth of the insti- tution. He told the members of the graduating class that each of them must find an allocation in life if they would find happiness and success. He then presented diplomas to the twenty-three mem- bers of the class, adding a person- al touch with a brief bit of advice or commendation to each gradu- ate.

Superintendent Halley then pre- sented the "Roger Q. Mills" medal to Walter Baker, for winning the annual debate; and the "Carrie R. Mills" medal to Miss Jimmie Knight for the best record in do- mestic science. He also presented a handsome wrist watch to Miss Knight with the compliments of Sam Dalches, Corsicana jeweler and optometrist.

Rev. J. Howard Williams, pastor of the First Baptist church, pro- nounced the benediction.

Those receiving diplomas were: Juanita Adams, Walter Baker, Kathleen Bock, Alice Cannon, El- wyn Cannon, Claude Eads, Robert Hale, Mary Hart, Jewel Jones, Jimmie Knight, Rose Knight, Everett E. Lear, Mada Love, Al- ton Mullins, Alice Jo Nettles, La Verne Ragdale, Myrtle Reed, Vir- ginia Richards, La Wanda Rich- ards, Nell Ringo, Lula Sewell, Opal Thornton, and Rebecca Wil- liams.

TUPELO RESIDENT DIED HERE; WILL BE BURIED TUESDAY

Mrs. Lola Thompson, 41, wife of G. N. Thompson of Tupelo, native of Navarro county, died at the residence of her daughter, Miss Art- rell Thompson, 608 North Beaton street, Tuesday evening, at 8:30 o'clock, and the funeral was held Wednesday afternoon at the Ham- ilton cemetery where burial was made. Prior to moving to the Tu- pelo community about a year ago, the family had resided in Corsicana for many years. Mrs. Thompson had been in ill health for three years. The funeral services were conducted by Rev. J. Howard Wil- liams, pastor of the First Baptist church.

Surviving are her husband, sev- en children, Miss Artrell Thomp- son, Corsicana; Johnnie, Donald, Oscar, J. C., Albert, Jack and Martha, all of the Tupelo community; four brothers, Donald Flovin, New York; J. B. Flovin, Columbus, Ohio; J. M. Flovin, Plainview, Texas, and W. F. Flov- in, Oklahoma; two sisters, Mrs. D. B. Hawpe, Amarillo, and Mrs. B. M. Lowe, Corsicana, and other relatives.

The funeral was directed by the Sutherland Funeral Home.

Youthful Fist Fight Ends in Death for One

CHICAGO, June 25.—(AP)—A 15- year-old school boy was killed yesterday when he and another youth of the same age fought with fists to settle their grievances.

The victim, Harry Heavilin, was punched in the stomach by Roy Stokes, shortly after the fight started.

Stokes was exonerated by a cor- oner's jury, which held the death to be accidental.

TEAGUE PLANS SEWER.
TEAGUE, June 26.—(Sp1)—At a regular meeting of the city council the question of a municipal sewer system was brought up for discus- sion. The city manager was in- structed to collect data relative to the expense for such an undertak- ing.

AND NOW THE TIRE TEST!

There have been cigarette tests, blindfold tests, and many other kinds of tests.
And Now We Have the Tire-Strength Test!

And there's nothing blindfolded about this test! You get the proof as to which tire is the strongest---

And you get this proof BEFORE YOU BUY!

Why wait to see how a glit- tering guarantee works out in the wear and tear of travel

A guarantee, in most cases, is a BLINDFOLD test, anyway!

Ours is a simple, convincing test of tire cords. We prove that it takes more weight, more wear and tear, to break a Star. Tire cord than it does to break the cord of any other tire!

This Demonstration Will Make You "SEE" Stars!

No intricate mechanism to befuddle you. No trick operations to keep the test from being absolutely fair. We simply apply weight to the cords until they break. To see how far they stretch is insufficient. THIS test TUGS at the cords until they BREAK. ASK TO SEE THE TIRE TEST.

Trade in Your Tires on a Set of HICKS-BUILT STARS!

Hicks' new low prices on Star and Dayton Tires, recently announced, mean greater savings than ever for you --- just at the time when you are thinking about vacation trips and summer journeys.

BIG DEMONSTRATION

of Nesco Saftimatic Gasoline

STOVES AND RANGES

On Saturday, July 6th we invite you to come to our store at 316 North Commerce St., and see these really wonderful Gasoline Saftimatic Control Stoves and Ranges. See the instantaneous lighter. See why it is impossible to flood the burners at any time, even with the valve open, because Saftimatic will not allow fuel to flow until generator is sufficiently heated. See how the gasoline supply is automatically shut off if the flame is accidentally extinguished. See all of the many new features that have never before been found in a gasoline stove. Watch next week's paper telling you full details of the demonstration. Be sure to remember the date and see the stove with a brain.

MRS. MATTIE BONNER DIED SUDDENLY AT EUREKA WEDNESDAY

WIFE PROMINENT NAVARRO COUNTY FARMER HAD BEEN IN ILL HEALTH LONG TIME

Mrs. Mattie Bonner, 64, wife of J. A. Bonner, well-known resident of the Eureka community, died suddenly at the family home in Eureka Wednesday night at 9:30 o'clock. Funeral arrangements are being held up pending the arrival of a son, J. L. Bonner, McLaughlin, S. D., who left last night and is expected to arrive Friday or Saturday if he makes connection with an airplane route he anticipates. The funeral will be held at Eureka either Friday afternoon or Saturday, according to plans Friday morning.

Mrs. Bonner had been in ill health for several years. She was born in Mississippi but came to Texas when a small child and resided with her grandparents, Dr. and Mrs. Hill, at Cooke's Ferry, Limestone county, near the Trinity river. Mr. and Mrs. Bonner moved to Eureka 42 years ago and had resided there since that time.

The funeral will be conducted by J. W. Simpson, pastor of the Eureka Presbyterian church, of which Mrs. Bonner was a member, and Rev. Darwood, Methodist minister.

Mrs. Bonner was the mother of thirteen children, three of whom died in infancy.

Surviving are her husband, six sons, J. L. Bonner, McLaughlin, S. D.; A. H. Bonner, Corsicana; L. B. Bonner, B. R. Bonner, Fred Bonner, and John Bonner, all of the Eureka community; four daughters, Misses Mary Belle, Martha, Nettie and Sue Bonner, all of Eureka; one half-sister, Miss Nettie Barnett, Eureka; one step-sister, Mrs. L. R. Boyd, Teague; one step-brother, W. E. Richards of Philadelphia, Pa., who will be here for the funeral; three uncles, Fred Hill, Sr., and John Hill, both of Fairfield; Hiram Hill, Dallas, and numerous other relatives.

The funeral will be directed by the Sutherland Funeral Home.

WOMAN ROTARIAN WEDS

NEWARK, N. J., June 27.—(AP)—The only woman Rotarian is a bride. The organization does not include women, but an exception was made for Miss Florence Elizabeth O'Neill. Because of her valued word as assistant secretary of the Newark Club she was made an honorary member. Rotarians came from afar to see her marry Johnny Sommer Schwin. He's a Rotarian, of course.

PLANE FURNISHES MOTO

PLEASANTVILLE, N. Y., June 27.—(AP)—Lieutenant Willard Rolland Wolfenbarger is an army aviator and when he was married to Miss Olga Isabelle Imperator, an airplane flew above the church, playing "Here comes the Bride" on a record.

CITIES OF UNITED STATES SEEK AIRPORT RATING BY DEPARTMENT OF COMMERCE

WASHINGTON, June 27.—(AP)—Classification of airport facilities of the country under department of commerce regulations has been started by the airports section of the aeronautics branch of the department under Col. Harry H. Bles. More than a score of cities, proud of their airport projects and eager to be placed on the official air map, have applied for ratings and the application forms and instructions have gone forward. Within a short time it is expected field-workers of the airports section will be at work inspecting the various projects.

The "A-1-A" rating will be the highest given by the department of commerce, and it was pointed out, airports must exactly meet the regulations laid down by the department before being so classified. Where an airport applies for an A-1 rating and cannot meet the requirements, it will be given a lower rating, if desired, until such time as the higher requirements are satisfied.

Just how many cities have airports which can meet the A-1-A specifications officials of the airports section are unable to say. They point out that few of the larger projects in the country have been completed.

Field facilities, landing area and night lighting equipment govern the rating under the airport regulations. The first letter designates the type of general equipment. The figure indicates the area classification and the second letter the kind of lighting equipment.

Hangar facilities, wind indicators, obstruction markings, repair shop equipment, weather reporting facilities, including radio for receiving reports, fire fighting and first aid equipment, personnel, and rest room and restaurant facilities are taken into consideration in the rating for general equipment.

An effective landing area of 2,500 feet in all directions is necessary for a "1" rating.

Beacons, boundary lights, lighted hangars, hangar lighting, obstruction lights, ceiling projectors, landing flood lights, time of operation and night field personal govern the third symbol of the rating.

Pontiac, Mich., was the first of the cities to request, awaiting for its municipal airport.

Congregation Beth-El, that we deeply mourn the loss of Ben Rosenberg, our beloved brother, that in his passing, we shall always remember his presence in our House of God, and that as a religious family we join hands with his dear family in mourning his death and eternal slumber in the land of undisturbed peace. We extend our sympathy to his beloved family and their loss is our loss.

BE IT FURTHER Resolved, that a copy of this resolution be given to his family, that a copy be sent to the local press for publication, and a third copy shall be kept in the records of Congregation Beth-El.

Respectfully submitted, CONGREGATION BETH-EL, Ey I. N. Cerf, Gabe Goldberg, M. L. Levine, Harry Kaufman, Committee

CORSICANA, TEX., JUNE 28, 1929

EDISON WINNER.

The Corsicana Daily Sun wishes to join with the entire citizenship of Corsicana and Navarro county in extending heartiest congratulations to Thurman Evans.

In competitive examination with some fifty high school boys representing various sections of the state Thurman emerged winner and was chosen as Texas representative to participate in the nationwide contest to determine the winner of a technical contest sponsored by Thomas A. Edison the winner to be given a four-year technical scholarship offered by Edison in a leading university.

Thurman no doubt is Texas' most envied youth today and Corsicana is proud of him. This city may have another Edison in the making. The passing years will tell. At least the youth has a wonderful opportunity, an opportunity of which he will make the most as his record in the Corsicana high school will indicate. He is popular with his schoolmates and his teachers speak of him in highest terms. He has a quick mind, is studious and takes life seriously—also he is a typical American boy and goes in for those things so dear to the heart of any boy.

The Sun does not hesitate in predicting success for Thurman and when he goes into the national finals with forty-eight other boys he enters with the good wishes and loyal support of every man, woman and child of this section.

TERMINATING WILD LIFE.

Marshes and swamps are generally thought of only as waste land and breeders of insect pests and disease germs. Tremendous sums are expended in this country annually for their drainage and conversion into arable lands and in destroying the insects and larvae found there. The malaria germ and the mosquito which carries it to human bodies both originate in the swamp and it is for their extermination that many thousands of acres of waste lands are being reclaimed through drainage.

Marshes thus reclaimed provide land of unusual fertility and eliminate diseases and insect breeding places but the good accomplished is outbalanced sometimes by a resulting harm of another nature. This is recognized by those who know that swamp land is vitally necessary for the existence of valuable bird and animal life. The luxuriant vegetation of these partially inundated lands provide both protection and food for the feathered and furry creatures.

The state government and real estate promoters in recent years have been draining great portions of Florida Everglades and converting them into farms and building lots, with resultant destruction of their rank vegetation. The outcome has been that innumerable wild creatures have been deprived of a haven and feeding place.

CROPS BENEFITED.

The recent rain came at an opportune time and all growing crops were greatly benefited. The precipitation made corn and was welcomed by the cotton farmer. Navarro county crops were never in better condition and all indications point to success in all lines of agricultural endeavor.

When the farmer has a good year all lines of business prosper and the present outlook points to an active and prosperous fall.

We have had a touch of spring, summer and fall all in the past few days—the versatility of Texas weather.

FINANCING THE WORLD

One can not fully comprehend the extent of American interest in foreign fields without scanning the foreign bond market. American investments abroad have been increasing at a tremendous rate and recent developments presage even greater things in the future.

Possessing half the world's gold reserve, the United States is the logical place to which Europe would look for credits. New York has taken the place of London as the world's banker. America's foreign investments exceed \$10,000,000,000, half of which have been made in the last six years.

Not only to Europe but to South America and Asia American financiers are sending capital for rehabilitation and expansion of industries and the stabilizing of trade. Politically, this country is still isolated. Financially, the United States is foremost among international.

Americans are showing increased confidence in foreign investments, a fact that is demonstrated by the huge loans granted in recent months to European municipalities and private industries as well as nations. To obtain those loans Europe had to prove to the satisfaction of the American bankers that her trade is on a sounder basis, that she is attaining greater economic stability and that the dangers of political and international upheavals are diminishing.

The United States is now embarked upon a new adventure—one which offers great opportunities and one which will further establish its supremacy among the nations of the world. Uncle Sam is rapidly becoming "uncle" to the world.

SOME FAMOUS GARDENS

The new National Arboretum in Washington will be unique in many respects among all gardens of the world. Not every site combines hills with marshlands that are suitable for water-lily farms, says Nature Magazine. The development of the arboretum along the lines that have been mapped will place the United States in the front rank of the gardening nations of the world.

Of course, it cannot be said that this country has been without any national garden these many years, but its venture on the thirteen-acre plot adjoining the Capitol grounds seems puny in comparison with England's beautiful gardens at Kew; the Jardin des Plantes, in Paris; the famous Koishikawa Gardens, of Tokyo, and the two-thousand-acre botanical garden at Rio de Janeiro.

Gardens such as these are of ancient tradition, dating their origin to the earliest days of plant culture. The oldest recorded seems to be the "Medical Garden of Mathaeus Sylvaticus," established at Salerno, in 1309, for the cultivation of medicinal plants.

The first botanical garden, as we know it today, was founded in Padua, in 1533. The Jardin des Plantes, of Paris, had a somewhat frivolous origin. It was established in 1597, "to supply the bouquets worn at court," but, from this beginning, it developed into one of the world's most beautiful gardens. Scarcely a civilized country exists today that does not have at least one national garden.

The United States government has means beyond any other nation to found a garden to rival in beauty and usefulness all others. And it has the gardeners and the men of science to bring it into being. If the plans go forward as they should, the National Arboretum will prove a mecca to scientists and garden lovers, not only from this country, but from many foreign lands.

All agree that the crop outlook in Navarro county was never better. Present indications point to a cotton crop of approximately the same magnitude as last year.

Trading with the home merchant is a pleasure while trading with the out of town merchant causes considerable inconvenience.

SEEING AMERICA.

Highway officials, hotel proprietors and automobile men agree that automobile traffic this year in all parts of the country is more dense than in any previous year. This is the greatest automobile year in the greatest automobile country of the world.

Improved road conditions, greater prosperity of the people as a whole, the presence of what may be called "easy money" and the increasing desire among all classes for a vacation contribute to the heavy traffic to be observed everywhere.

Traffic fatalities will probably keep pace with the increasing number of cars on the road. Statistics already available indicate that this year will establish new records for number of grade crossing and other automobile accidents. It is not that the motorist and pedestrian are less careful, but that the proportion of accidents to volume of traffic will be maintained in spite of safety-first and cross-crossings-cautiously campaigns and larger and better trained traffic squads.

This year's peak highway load will impress more forcibly upon the public mind the folly of building main highways narrow in order to obtain the greatest possible mileage with the money available. Narrow highways, especially at curves and steep grades, are responsible for unnumbered accidents.

When the motoring season is over and the tourist tide has reached its ebb the nation can count the cost in the dead and injured, wreckage, in curtailed production and neglected businesses. Will this cost be counteracted by the improved health of millions, a more contented people, a national intellect broadened by travel and prosperous automobile and accessory dealers, service station proprietors, hotel proprietors and the others of that vast army which depends for its bread upon the motorist?

AVIATION'S HOODOO.

The Swedish transoceanic fliers seem to have furnished one more proof of the hoodoo that persistently attends efforts to make the westward flight across the Atlantic. Captain Ahrenberg and his two companions were apparently forced down on the coast of Iceland by a broken gasoline pipe, but terrific head winds also seem to have been a factor in the mishap.

Lindbergh flew to Paris with the aid of a 30-mile-an-hour tail wind that followed him all the way across the Atlantic. Byrd encountered no serious meteorological difficulties until he ran into dense fog off the French coast. Chamberlin and Levine experienced no really bad weather while making the oceanic part of their flight to Germany. But the whole history of flights from Europe to the United States has been one of disaster or near-disaster. The Bremen to date is the sole airplane that has succeeded in making the westward crossing. And even the Bremen was forced hundreds of miles off her course before she landed on Greenly Island.

The time will undoubtedly come when airplanes will be built so stoutly and equipped with such powerful engines that they will prove their superiority to virtually all weather conditions. But the important part that meteorological factors play in aviation at present has been amply demonstrated by the repeated failures of westward trans-Atlantic flights.

KNOW TEXAS.

With geologists believing most of Texas mineral wealth is still uncovered, the states' mineral output in 1928 was valued at \$435,000,000.

The future possibility of Texas' agriculture may be guessed at from the fact that only 30,000,000 of its 167,000,000 acres are under cultivation.

In 1920 Texas had 29 cities of above 10,000 population and five above 50,000. The 1920 census is expected to show fifty cities above 10,000 and 11 of above 50,000 with three and possibly four above 200,000. Since 1920 Texas has grown in population at the rate of

Following Fashions of Folly

Caused Old Judah's Doom

A Backward Look Over Life of a Nation Unwilling To Remain "Peculiar;" And the Consequence of Departure from Sure Standards.

BY WILLIAM T. ELLIS

War review books are all the vogue. From both sides of the great conflict, and from all sorts of persons, we are getting "inside" and "uncensored" stories of the war. Hindsight is now to the fore.

In like fashion, we have come to a time of review of that tragic section of Jewish history which has been the Sunday school lesson for the past three months. We are called upon to take a long look and a deep look; and to consider those larger forces which determine the destinies of nations and men. The exercise is one that should quicken national consciousness and concern, as well as intensify foresight and faith.

Ups and Downs of a Nation
 Old Judah, which came to an end in 586 B. C., is a picture of national life. In it, as on a motion picture screen, we may see portrayed the agencies and tendencies which determine a people's destiny. Judah had good kings and bad kings, but mostly bad. She had devout worshippers of Jehovah and debauched devotees of the sensual idols of her neighbors. And throughout she had prophets of the living God ever calling both rulers and people back to loyalty to Jehovah and to justice.

But in the long run, the tug and drag and drift of heathenism, with its pandering to man's lower nature, was too much for the spirituality of the Jews. They did not want to be a "peculiar people"; they wanted to be popular, and like their neighbors. And so the worship of Baal and Astarte and kindred symbols of sensuality, superadded the high, pure worship of the God of their fathers.

Right here emerges a point that will repay pondering. Along with freshly idolatry went social injustice. Oppression, fraud, robbery, and extortion of the poor accompanied these departures from Jehovah-worship into flesh-indulgence. And wherever paganism has prevailed, the same thing has been true. The selfishness which is sensuality and heathen materialism to which so many persons give allegiance.

Our own day's newest problem is thus linked with old Judah's decline, in the proposition that only a faithful allegiance to Jehovah and His law can give a people order and justice and peace and common good will. During the war President Hoover, who was then American food administrator, told a visiting delegation of churchmen that the church is the only agency that can create a great moral conviction in the hearts of the people. Certainly Judah's story carries the moral that defection from God implies a decline of morality, righteousness and prosperity.

Is the Freshman Right?
 Recently a college freshman, returning from a class in ethics went to be a notorious radical, informed his hostess that of course all the older standards of right and wrong have been discarded by progressive people; and that it may even be ethically correct to take what you need without the owner's consent. (He did not call it stealing; that term had been chucked into the scrapbasket, along with the rest of the Ten Commandments, by his college professor.) To the wise and mature woman in whose home he was a guest the young man was condescendingly

more than 100,000 a year, according to the census bureau report. Which reminds us that the city limits of Corsicana should be given proper extension before the 1930 census is taken.

compassionate and considerate, for she had not had his advantage!

That freshman has been taught that there is nothing else in heaven or earth so sacred as his "personality." He has learned to flout authority, to turn his back upon God and the Moral Law, and to worship only that "high pillar" which is a perpendicular personality. He is as "modern" as the reggae force of old Judah, who forsook Jehovah for the idols of self-indulgence. However, there is nobody in his particular college to tell him what a commonplace and conventional fool he is making of himself. If he only knew it—but he doesn't—he could get clear and burning light upon his situation from the writings of Isaiah and Jeremiah, as they dealt with his kind and real ancient.

Standards That Stick.
 If this backward look at the decline and fall of the Jewish kingdom teaches anything, it surely teaches a truth which is counted very old-fogyish and reactionary by the moderns. It is, namely, that the laws of God, given on Sinai, are fixed and permanent and universal standards, which may not safely be violated. The moral and spiritual principles of the nations by Jehovah is for all men and for all time; it was no temporary expedient in one nation's progress. Violation of that code of right and holy are the laws of God. Low and soft and sensual are the ways of heathen selfishness. Given choice between the two, the Jews slumped.

But God never lowered his law for the sake of securing conformity. Life must be lifted to the level of the law, not lowered to the level of life's weakness or baseness. (This day of truth which myriads of the supporters of bootlegism seem not to sense.)

Again and again Judah sank into the slime and slough of idolatry; and often she was led thereto by her kings, who, however, remained true. There was real heroism. In the face of opposition, and at the price of certain unpopularity, they cried aloud the old and golden law of Jehovah.

When Statesmen Show Alarm.
 A word crisis existed during the period of Judah's history which millions of Sunday School members have been studying. World empires were in the breaking and in the making. It was an hour of opportunity for real statesmen, and singularly similar to international conditions as they exist today.

So far as our record goes, the only real statesmen on the horizon were the prophets, like Isaiah and Jeremiah, who measured their time by a few great and simple and changeless principles. This ability to sense and to stand for the essential simplicities of a situation is the surest test of statesmanship. The cunning contrivers and nimble opportunists are politicians, not statesmen. The prophets saw, and said, that if the people would be true to the old virtues which were the real characteristics of the nation—those truths which God had explicitly laid down as the guiding principles of His chosen people—all would be well. But violation of these removed the very reason for existence of the Jewish commonwealth.

I our own day our greatest leaders are gravely concerned over the widespread departure of people from the basic ideals of democratic self-government. They perceive and proclaim that disregard of constitutional law, and disdain of fundamental ideals of good will and

mutual responsibility, threaten nothing less than a subsidence of the foundations of government. A people must be true to their own genius if they are to continue as a nation. The fate of Judah, and a thousand other countries, illustrates that truth.

So, in a sense, this is an alarmist lesson. It points out the peril of disobedience to basic law, which is heaven-prescribed righteousness. Good citizenship is the Slaves' twin of godliness. To cut loose from God is to go adrift in to the whirlpool rapids of inevitable shipwreck. Whosoever is not true to God, is false to his nation and to himself.

SEVEN SENTENCE SERMONS.

Life is a progress, and not a stagnation.—Emerson.

If an offense comes out of the truth, better is it that the offense come than the truth be concealed.—St. Jerome.

Go make thou garden as fair as thou canst.
 Thou worst never alone;
 Perchance he whose plot is next to thine
 Will see it and mend his own.
 —Mrs. Andrew Charles.

Let every young man who would be a power and not a cipher in the world cultivate a decision of character.—William Matthews.

The good man out of the good treasure of his heart bringeth forth that which is good; and the evil man out of the evil treasure bringeth forth that which is evil: for out of the abundance of the heart his mouth speaketh.—Luke vi. 45.

Forenoon and afternoon and night,
 Forenoon
 And afternoon and night—
 Forenoon, and—what?
 The empty song repeats itself. No more?

Yes, that is life: make this forenoon sublime—
 This afternoon a psalm, this night a prayer.

And time is conquered, and thy crown is won.—E. R. Sill.

Deliver us from fear and favor, from mean hopes and cheap pleasures.—Stevenson.

"The International Sunday School Lesson for June 30 is a Quarterly Review, 'Prophecy and Kings of Judah's Decline,' Psalm 139.

Notice

There will be an ice cream supper Friday night, June 28th at the school building at Purley for the benefit of Cemetery association. Everybody welcome.—Committee.

FROST TO HOLD BIG COMMUNITY BANQUET THURSDAY EVENING

FROST, June 25.—(Sp.)—The farmers and merchants of Frost and surrounding communities will give a banquet Thursday evening, June 27, at Frost. W. V. Harrison, president of the Frost chamber of commerce, announces that Dr. Helme of Mexico, president of the Mexico chamber of commerce, and nationally known speaker, will deliver the principal address of the evening.

County Agent Henry Gentry, W. Roy Christian, secretary of the Corsicana chamber of commerce, and other Corsicana and Mexico citizens will be guests.

IN LOVING MEMORY.

On Friday morning, June 14, 1929, the death angel came into our midst and took our mother, Mrs. Virginia Sykes. She was seventy-six years, six months and ten days old. She leaves nine children, fifty-two grand children and several great-grandchildren and a host of friends to mourn her loss. She was at the home of her daughter, Mrs. Ed Wiley of Dawson. She leaves the following children: Mrs. Bessie Lance, Corsicana; G. W. Sykes, Corsicana; Mrs. A. D. Hunter, Waco; Mrs. Ed Wiley, Dawson; Edmon and Walter Sykes, Dawson; J. J. Sykes, Blooming Grove; Mrs. Dollie Raines, Stamford; Mrs. Bettie Johnson, Stamford. All of the children were at her bedside when death came and Mrs. Bettie Johnson of Stamford. All was done that loving hands could do, but we have to look to the One that does all things well, and say they will be done not ours. Oh, was so hard to give her up. She had smile and a kind word for every one; to know her was to love her. She professed faith in Christ when a small girl and joined the Missionary Baptist church in which she lived a Christian life until God said come. We know she is at rest where there are no more pains and no heart aches. She was laid to rest in the Brushy cemetery beside her husband who preceded her in death in 1918. Brother Carraway conducted the funeral services. May we all live a life as she has lived, so when the time comes for us to go, we will be willing and ready to go and meet our dear mother where parting will be no more.

A precious one from us has gone,
 A voice we loved is still and has gone,
 A place is vacant in our home
 Which never can be filled.
 Written by one who loved her,
 LORENE LANCE

Bill To Limit Certain Crops Dies In House

AUSTIN, June 25.—(AP)—The so-called "farm board" bill, providing for the appointment of a commission of four persons which would, among other things, determine the maximum percentage which could be planted to cotton on each farm, was killed by the house today. It was postponed indefinitely.

The commission would have determined the nature and extent of plant disease, root rot, boll weevil and pink boll worm prevalent in any section of the state.

PAINFUL INDIGESTION

"I suffered a good while before I found something that would help me," writes Mr. E. W. Berry, of Neosho, Mo. "My trouble was indigestion, pains in my chest and a tight, bloated feeling that would make me feel smothered."

"Speaking of this to a friend of mine, he told me that Black-Draught was good for this trouble. I bought a package. It certainly did help me, so I continued to use it. I am in the transfer business, and sometimes when I would be hungry and ready to eat, I would have a call and would have to eat later. Then I would eat too much or too hurriedly. This would cause indigestion. After I started using Black-Draught, I found it did me a world of good."

Man Is Jailed In Connection County Officers' Raid

A white man was arrested Tuesday afternoon and lodged in the Navarro county jail in connection with the finding of twenty gallons of shot beer by county officers. No complaint had been filed shortly after noon Tuesday in the case.

The raiding party was composed of Sheriff Rufus Pevehouse and Deputies J. M. Westbrook, Alton Bradley and V. McMurray.

As a sidelight to the raiding party, Deputy Sheriff McMurray bagged a squirrel with a pistol shot, according to the officers.

WOOL GROWERS ASK INCREASED TARIFF ON THEIR PRODUCT

WASHINGTON, June 25.—(P)—An increase of five cents a pound in the present duty of 31 cents on raw clothing wool, and the application of the full rate to wools finer than number 50 grade, and hair or camel, was advocated before the senate finance sub-committee today by C. C. Belcher, Del. Rio, Texas, representing the Texas Sheep and Goat Raisers' Association.

The house tariff bill provides a rate of 34 cents on raw wools used for clothing and 24 cents on coarser wools between numbers 40 and 44.

Belcher declared this differential discriminated against mohair producers of Texas, whose output represented 80 per cent of the total American production.

While coarser imported wools used for clothing do not compete much with domestic wool, Belcher said, they do compete directly with Texas mohair, and should bear the same rate of duty as finer wools.

Camel's hair, while dutiable at 24 cents a pound, is allowed a drawback if it is used in the manufacture of carpets and rugs. The witness would eliminate the drawback privilege on the ground that hair also displaces mohair.

L. O. Landrum, Laguna, Texas, on behalf of the American Angora Goat Raisers' Association, urged that the full raw wool rate be applied to the coarse grades known as luster wool.

Miss Jimmie Knight was winner of the fine Bulova wrist watch offered by Sam Dalches when the clock with the names of the graduates of the State Home high school arranged on the face of it stopped opposite her name at 8:51 Tuesday morning.

The clock which was placed in the lobby of the main building, was started several days ago and considerable interest has been manifested during the past few days as the time to stop neared.

W. A. Martin, Jr., and son, Charles, just returned from Rochester, Minnesota, where they took Mrs. Martin and daughter, Rose Marie, Rose Marie will be in Room 320, St. Mary's Hospital, Rochester, Minnesota, and will be glad to hear from her little friends.

BENEFICIAL RAINS FELL OVER NAVARRO COUNTY MONDAY

Good rains fell in almost every section of Navarro county Monday afternoon breaking up a hot spell that had extended over the past two weeks, assured a good corn crop and furnished moisture enough to keep cotton growing.

Emhouse, Dawson and Purdon were the only communities in the county reporting only light showers.

Barry, Blooming Grove, Frost, Angus, Richland, Eureka, Powell, Kerens, Roane, Chaffield and other sections were among those reporting.

A hard wind and a heavy electrical storm accompanied the rain at Frost and electric light poles, telephone poles were blown down and limbs were blown from trees. No other damage was reported.

Lightning struck the residence of Sam Fleishman, 1337 West Thirtieth avenue, during the rain here knocking a hole in the roof and scattering shingles about the yard. No one was hurt. This is the only damage reported in Corsicana.

The lightest rain in the county, with the possible exception of Dawson, Purdon and Emhouse, fell in Corsicana according to the reports received and here it measured .18 of an inch according to the government gauge.

The rain fell slowly and came at an opportune time. Corn which was not necessarily suffering, needed rain to fill out and fully mature the ears. Land had dried out rapidly during the past week on account of the hot weather and moisture was needed to keep cotton growing.

All crops have been worked out since the rains ceased sometime ago and the farmers were well up with their work.

Fine Rain at Frost.

FROST, June 25.—(Sp.)—Frost and the surrounding communities had a fine rain Monday afternoon, which was needed badly for the crops.

W. A. Martin, Jr., and son, Charles, just returned from Rochester, Minnesota, where they took Mrs. Martin and daughter, Rose Marie, Rose Marie will be in Room 320, St. Mary's Hospital, Rochester, Minnesota, and will be glad to hear from her little friends.

FOREST FIRES IN COLORADO BLAZING WITHOUT CONTROL

DEVNER, Colo., June 27.—(AP)—Forest fires in the Routt National forest and in the heavily timbered region at the headwaters of the Blue River, near Breckenridge, were blazing uncontrolled today. A half dozen other fires of less importance were reported in various sections of the state.

More than 200 men were battling the Routt forest fire, in the northwestern corner of the state. A high wind swept the flames hundreds of feet in the air and threatened the entire forest.

The fire near Breckenridge was reported by lookouts, and forest officials were hurrying men to the scene to save as much timber as possible.

Forest officials said lack of rain and high temperatures had turned the forests into huge tinder boxes.

All Night Service

The public has shown appreciation of our 24 hour service by giving us a substantial increase in business. We are grateful.

NATIONAL OPEN GOLF TITLE BEING SOUGHT BY MANY

LARGE NUMBER COUNTRY'S BEST PROS AND AMATEURS ENTER TOURNEY

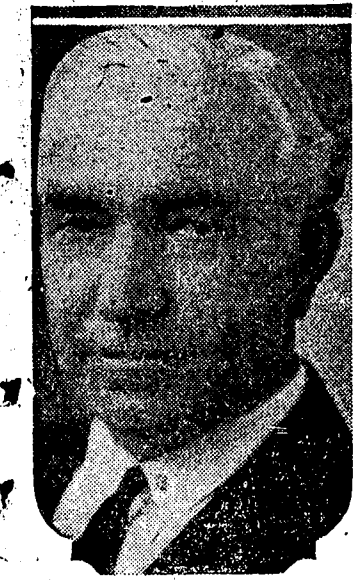

MAMARONECK, N. Y., June 27.—The 33rd competition for the Open Golf championship of the United States today reached the serious stage. No longer can a player say he scored "about 73," or "just about 75." He will have to know exactly how many blows he takes on every one of the 72 holes. The starting field included 148 of the country's best professionals and amateurs. Eighteen holes today and another 18 tomorrow will reduce the field for Saturday's final play of 36 holes which will be restricted to the low 60 and ties at the half-way mark.

The current championship is largely domestic. Cuba has sent John Wyland, a few Canadian pros are trying their luck, and one distinguished visitor has come from Scotland. The representative of Great Britain is Jack White, who won the British Open championship 25 years ago.

The stern countenance of the course was somewhat softened by lack of rain as the championship play started, and a smile instead of a scowl will be seen at some of the long holes when a long drive will be even longer over the hard fairways.

MEXIA GOLF TOURNEY.
MEXIA, June 26.—(Spl.)—Qualifying rounds are being held this week at the Mexia Country club for a "golf ladder" tournament in which golfers will be given rank on the ladder according to their medal score, and will be displaced only by challenging of the man just below them.

Never Saw Equal
Of Sargon, He Says
"I believe I had about the worst case of stomach trouble in Texas, but after taking two bottles of Sargon and one bottle of Sargon Mass Pills, I am in the very pink of condition."

W. H. NEWBY
"Right after every meal I would have sour stomach. I suffered day and night. I was at dinner, and a sharp pain hit me right under my liver and extended through to the pit of my stomach and almost 'knocked me out.' I was dizzy for hours afterwards and the pain just stayed in my side. My kidneys were acting so freely I had to be up four or five times every night. Loss of sleep made me weak and nervous and my whole system was badly run down. My liver was out of order. I was badly constipated, and was continually taking laxatives. "Since taking the wonderful Sargon treatment my only trouble is to keep from eating too much, and never have a sign of indigestion. All the pain is gone from my side, my nerves are in fine shape, and I sleep fine. I'm no longer constipated. Sargon Soft Mass Pills certainly are wonderful for they do their work thoroughly without griping like other laxatives. "I had read a lot about Sargon, but I never had the slightest idea I would get such remarkable results from it in so short a time." The above statement was made by W. H. Newby, well-known resident of Dallas. He owns the Live and Let Live Barber Shop at 3908-A Holmes St.

Sargon may be obtained in Corsicana from McPherson Drug Co.; in Kerens from Walker Drug store; in Rice from Rice Pharmacy; in Richland from Brown Drug Co.; in Blooming Grove from Olin Drug Store; and in Dawson from Lovelless Drug Co. (Adv.)

Athletic Outfielder

Told Sport Fans to Watch Him in Majors

SHREVEPORT, La., June 27.—(P)—The vicious hitting of Al Simmons, Athletic outfielder, in the recent series with the Yankees has recalled to Shreveport fans the predictions of many "experts" back in 1923 that Al would never make a great big league hitter.

While playing with the Sports that year Simmons was one of the most awkward batters in the circuit. He came in for constant kidding from fans all over the league for his habit of swinging with his "foot in the bucket." It was in San Antonio that Al was being ridden particularly hard one afternoon.

"All right," he retorted to a ringleader of the razz brigade, "You had better take a good look at me. You'll have to come up to the big leagues to see me next year."

Fort Worth Pilot Sets Record for Long Term

FORT WORTH, June 27.—(P)—Jackey Atz, Fort Worth's baseball pilot, probably holds a record for continued management of the same minor league club.

He came to the Panthers from Chicago in 1918 and has won six Texas league pennants, the last in 1925.

Like the courthouse clock, Atz has become a fixture in Fort Worth. He has not bothered to sign a contract for several years. When spring training time arrives, he drives here from his New Orleans home, and when the season closes he returns there.

D. M. Sawyer, of Pisgah Ridge, was in town Tuesday afternoon on business.

FIRST GAMES IN BI-STONE EMPIRE LEAGUE PLAYED

MEXIA, June 27.—(Spl.)—First games in the Bi-Stone Empire Baseball league were played Sunday, the Mexia Browns defeating Tehuacana 11 to 10. Streetman won from Irbesbeck 5 to 2, and Fairfield defeating Mexia Mills 5 to 1.

Fairfield plays at Streetman Wednesday and Groesbeck at Tehuacana, while the Mexia Browns and Mills meet Saturday afternoon in Mexia.

Two games a week are being played for a loving cup offered by W. K. Boyd of Mexia. The race ends August 21, when the two leading teams play a five game playoff. Virgil Matthis, Tehuacana, is the arbiter of the loop.

Galveston Outboard Motor Club Regatta To Be Held July 4-5

GALVESTON, June 27.—(Spl.)—The Galveston Outboard Motor Club Regatta, to be staged July 4-5, bids fair to prove an outstanding event in the season's racing program for this type of craft.

The piece de resistance of the two-day program is the round Galveston Island marathon to be staged the morning of the fourth. More than 60 entries from all parts of America have been received for this event, including that of Harrison M. Fraser, of Auburndale, Fla., holder of the world's record of 43.76 miles per hour, established at the Miami regatta last March.

It is generally conceded that the marathon will offer as severe a test as the outboard motor craft have been asked to race over. The course will take them through bay, davy, the narrow and swift currents San Luis pass, main channel entrance to Galveston harbor and the open gulf. The course will be adequately marked and patrolled through the co-operation of the U. S. coast guard, customs officials and owners of private yachts. The racing boats will pass close in shore on the Gulf leg, in order to afford the crowds on the seawall boulevard an excellent view of the race for the entire distance.

The marathon carries a prize list of \$1900, the winner receiving \$700. In addition, many minor prizes and trophies for special performance are being offered. Several hundred dollars in cash prizes besides additional trophies are offered in the speed boat races to be sailed over the regular course in Matias Bay on July 5. The regatta has the sanction of the Mississippi Valley Power Boat association.

Motor boat enthusiasts from all parts of the southwest are expected here by the hundreds and with several other big features programmed for Galveston's annual Independence day celebration, the biggest crowd of the year is anticipated. All rail lines are offering special excursion fares for the occasion and all motor roads are again in good shape.

Purdon Peeewees Issue Challenge Lightweight Clubs Of This County

PURDON, June 27.—(Spl.)—The Purdon Peeewees were defeated by the Dawson junior nine at Dawson Saturday, 4-2. This was the second game that the Dawsonites have defeated the local club this year in the six games played between the two.

The Peeewees have played seventeen games this season, winning nine, losing seven and tying one. The Peeewees have issued a challenge to any team in Navarro county of their weight. The nine regulars of the local club tip the scales at 677 pounds.

A return game is planned between the Peeewees and the Dawson club here within the near future.

M. S. Cook won third place in the city-wide tennis tourney by defeating Earle "Ten Spot" Alverson 6-3, 6-3, Wednesday afternoon on the City Park court. In the final match, L. L. Levy won the first set, 7-5, before darkness halted activities. The match was resumed Thursday afternoon with the veteran Levy having a decided advantage.

Speaking of the tennis tournament, it reminds us of the saying, "Youth Must Be Served." Two young racket wielders having entered the semi-finals, Earle Alverson and John Sheppard, State Home Lads who learned the game at odd times and represented Navarro county in the district meet in Hillsboro, Alverson in the singles and Sheppard paired with Ragsdale, in the doubles. Levy must not think much of the saying or must translate it this way: "If youth must be served, I'll try putting them where he can't get 'em." And in the first set he was eminently successful.

Levy is probably the best fitted of all entrants to play in the finals, nothing ever upsets him; he plays practically the same game under fire as he does in practice. If he ever stations himself in the middle of the court, near the back service line, it is impossible to put one by him—and he will place the ball in corners of the court or smash it by his opponent.

The Rinky-Dinks are having one grand time lately, beating the best amateur baseball nines in the county. Defeating the Humble Refiners last Sunday and the Cen-Tex Refiners Wednesday afternoon. This group of local sand lotters have a wealth of material and are never bothered about pitching material, having at least three men who can toss 'em over in the most approved style.

The Cotton Mill Junior team, bi-county champions, are still working over the question, "Who's Next?" No word has been received from the state headquarters concerning the schedule for the district games and Beauford H. Jester, state director of American Junior League baseball, is unable to tell the local champs who and when they will play. Definite word is expected from state headquarters at any time.

With the "dog days" coming on, the Neatman is becoming a popular resort. Each evening hundreds of people go to the Nat to enjoy a good swim and indulge in some plain and fancy diving.

COOK WINS THIRD PLACE IN ALL-CITY TENNIS TOURNEY

M. S. Cook won third place in the city-wide tennis tourney by defeating Earle "Ten Spot" Alverson in straight sets 6-3, 6-3, Wednesday afternoon at the city park court.

In the final match between L. L. Levy and John Sheppard, the veteran Levy won the first set, 7-5, before darkness halted activities. The match will be resumed Thursday afternoon.

A large gallery was on hand for the games Wednesday afternoon, and the number of tennis fans witnessing the final contest is expected to be the largest gathered at the city park for a tennis match.

Deciding Game of Blooming Grove and Mag-Miller Series

According to an announcement made Thursday morning by R. C. Ralston, sponsor of the Mag-Miller baseball team, the Blooming Grove Independents will meet the local team in the final and deciding contest Sunday afternoon at 3:30 o'clock at the Municipal Park. The grandstand has been covered, and baseball fans witnessing the crucial game of the series will be assured of a comfortable seat.

In the two meetings of the premier independent teams, the Blooming Grove players won the initial contest on their home lot, 8-7, in ten innings. The second game was played at the Municipal park last Sunday with the Mag-Millers getting a 1-0 decision.

Considerable interest has been shown in the games between the two teams and a large crowd is expected to be on hand for the third and deciding contest next Sunday afternoon.

Rinky-Dinks Win Abbreviated Game From Cen-Texers

Scoring nine runs in the second and third innings, the Corsicana Rinky-Dinks defeated the Cen-Tex Refiners of Angus 9-1 Wednesday afternoon in a five-inning wrap-counter played on the Mineral Hill diamond.

Score by innings:
Cen-Tex 100 00-1 3 0
Rinky-Dinks 045 0*-9 10 1
Batteries: S. Thomas, Merrill, McCannell and Norwood; B. McDougle and Crossland.

West Point Officials Want Ponies Return

DALLAS, June 27.—(P)—West Point athletic officials and students are anxious to bring the Southern Methodist university Mustangs back for another game as soon as possible, according to Mortimer "Bud" Sprague, Dallas boy, who captained the Army eleven that defeated the Ponies, 14 to 13, last fall. Sprague is here for a three-day visit with his parents.

"They never have forgotten S. M. U.," he said. "That game still is being talked about on the plains."

Fort Worth Buys Pitcher Dick McCabe

LOS ANGELES, Cal., June 27.—(P)—The outright sale of Dick McCabe, right handed pitcher, to the Fort Worth club of the Texas League, was announced yesterday by officials of the Hollywood club, Pacific Coast League. McCabe, this year had been unable to break into the win column.

THURMAN EVANS TELLS OWN STORY; TO REPRESENT TEXAS IN NATIONAL EDISON CONTEST

(Editor's Note.—Thurman Evans of this city has just won the school year-end Texas National Edison contest. He was the winner over fifty-four contestants from every state in the union. Upon his return to Corsicana the Sun requested Thurman to write his own version of his experiences. This he did. And it can be added Thurman has no ghost writer.)

By THURMAN EVANS
(Winner Edison Contest.)

The first test was by far the most difficult one. We all went to Austin expecting the worst, and we were not disappointed. I went to the senior high school Monday morning, June 17, and found fifty-four other boys waiting for the test. We all got very friendly with those who were conducting the test and with each other. We were numbered and our names did not appear on the papers at all. I got number 13.

They gave us standardized intelligence tests for about three hours that morning. The hardest one was a technical one. To answer it correctly required knowledge of carpentry, mechanics, mathematics, chemistry, electricity, shop practice, and practically everything else. I answered a few of the questions.

I was taken to lunch by Chester B. Allen, who worked for Mr. W. L. McGill, at the university. He then drove me about the city and the university.

At 2 o'clock we all came back to the high school for the rest of the first test. Mr. Marrs made us a speech, and Mr. Long from the chamber of commerce announced that there would be a bus waiting to take us up to Barton Springs when we finished the test.

Monday afternoon's test was to me the most difficult part. We had our choice of chemistry or physics, and I chose physics. The answers to all the questions were in the book, all right. But I had forgotten most of them. The test lasted three hours, and when we were about half through, Mr. Gettis had some ice cold soda pop sent in. It was soon taken in.

We had a very enjoyable swim at Barton Springs. The boys got together and all became friends. After the swim, Mr. Blackman dined us on hamburgers and soda pop. We all ate plenty.

That night Martin Ludeman of Denton and I went to a show and walked around. The next morning we went out to the university where we saw Mr. McGill. We then went to the capitol, climbed to the dome, and took some pictures.

The papers were graded and the highest one-fourth of the boys were called back. I got a telegram Saturday morning so I went to the high school and had Mr. Willard show me how to work the problems we had had on the first test. He was glad to do it and he has helped me considerably. He has taught me both chemistry and physics, and his methods of teaching have enabled me to do what I did.

I went back to Austin Sunday. Cecil Combs of Dallas and I rode down on the same bus from Waco. Monday morning the thirteen boys who returned were interviewed separately by the committee composed of Professor Silvey, Professor Boner, and Professor Boon. They asked us personal questions as well as technical ones. I was examined second, so I was not in suspense as long as most of the boys. While awaiting the verdict, we discussed general relativity, the atomic theory, X-rays, and everything else we could think of including girls.

About 3:30 Mr. Marrs called us in and announced that number 13 was first and number 4 was alternate. Number 4 was Gifford White of Fredericksburg. The other boys surely were nice. They all shook hands with us, wished us luck, and offered to do anything for us they could.

Mr. Marr's secretary offered to find a girl to hold the hand of all the losers, but Gifford and I were left out of this.

At the suggestion of Mr. Marrs, Gifford and I sent telegrams to our mothers. Then we went in and talked with Governor Moody for a while. After this we were introduced to the house by Representative Cox. He was very complimentary in speaking of us.

Mr. Amstead, a Boy Scout executive, was very nice to Gifford and me and drove us around quite a bit.

Thirteen Proves Be Lucky Number Thurman Evans

Number 13 might be a "jinx" for some people, but Thurman Evans, winner in the Edison scholarship contest, isn't a bit superstitious, and was designated by that number in both tests held in Austin, it was learned today.

The state winner stated that the contestants were being assigned numbers in the first test and when the number believed by a number of people to be bad luck, was reached, the examiners halted and asked the question if any had any scruples against being No. 13. After a deathly silence, the Corsicans lad spoke up, stating he would be the jinx number.

Now the 54 contestants falling by the way in the test, are wondering whether No. 13 is an unlucky number after all.

In and announced that number 13 was first and number 4 was alternate. Number 4 was Gifford White of Fredericksburg. The other boys surely were nice. They all shook hands with us, wished us luck, and offered to do anything for us they could.

Mr. Marr's secretary offered to find a girl to hold the hand of all the losers, but Gifford and I were left out of this.

At the suggestion of Mr. Marrs, Gifford and I sent telegrams to our mothers. Then we went in and talked with Governor Moody for a while. After this we were introduced to the house by Representative Cox. He was very complimentary in speaking of us.

Mr. Amstead, a Boy Scout executive, was very nice to Gifford and me and drove us around quite a bit.

SENATE PATRONAGE PROBE OPENED IN TEXAS THURSDAY

(Continued from Page 1)

any other state in which either party is now campaigning for funds, and if you know of any I would appreciate it if you would tell me of them," Senator Brookhart said. "You campaign is a good suggestion to officeholders whose terms are about to end that they should contribute, isn't it?"

"We don't intend such a suggestion," Nolte replied.

Politics in Hidalgo county once more came under discussion when two witnesses charged that the republican party, by refusing to put a ticket in the field, left the democratic "machine" in control.

Clinton Fraser, Sr., Edinburg, said:

"It is universally understood that Mr. Baker says to Mr. Cramer: 'Please, Mr. Cramer, you stay off my preserves, and I'll stay off yours.'"

Baker Heads Machine.

A. Y. Baker, Hidalgo sheriff, is recognized head of the democratic machine, while independent voters in the county blamed Republican National Committeeman R. B. Cramer for their failure to elect a republican ticket in the last election.

Fraser said that when a republican convention was held, five persons bolted and decided not to put out a ticket while 60 more named candidates for the republican party. The five bolters were recognized, and the third, and the sixth, sixty thrown out by the state committee, principally because Cramer "preferred not to have a republican ticket in Hidalgo county."

Chairman Nolte on several occasions was called on to defend the state organization. Once, Senator Brookhart asked:

"All officeholders are required to contribute to the republican party, aren't they?"

"To the contrary, Senator," Nolte answered.

"Well, are they called on to pay?"

"No, we don't expect donations. And if any of them have strings attached, we refuse to accept them."

Nolte said one check had been returned because an assistant United States marshal said his chief had suggested he donate.

Brookhart asked whether it is true that a good portion of the money raised by the republicans in Texas has been used to fight Harry M. Wurzbach, republican, defeated for congress by Augustus McCloskey, democrat, in the last election.

Says Wurzbach Not Republican.

"I voted against him. He is not a republican," Nolte said.

"I never would not have gotten any party in Texas if there was not a republican organization," he said. "Once I have democrats—I concede that," Brookhart remarked.

Mrs. Schleben told of conditions in Hidalgo county, explaining there are eight boxes in which only Mexicans vote.

"How do they vote?" Brookhart queried.

"That's our difficulty," she answered. "Many of them don't speak English. There is no question in the minds of about 8,000 people in our county that Cramer could relieve the situation if he chose."

She explained that when her organization was denied places on the ballot they held schools to instruct voters to write in names of their candidates and that they polled about 6,000 votes.

Indictment of Party.

"I think the polling of 6,000 votes is a remarkable record of a public uprising and a terrific indictment of the republican party," Brookhart said.

Questioning Mrs. Schleben, Brookhart asked whether she knew that Cramer did not have anything to do with the Hidalgo election.

"I am familiar with big political houses, and they never do it—

FORMER OFFICIAL WOULD PUT ENFORCEMENT BURDEN ON EACH INDIVIDUAL STATE

WASHINGTON, June 25.—(AP)—Calling for a "fair and square show down" with a view to more effective prohibition enforcement, Wade H. Ellis, assistant to the attorney general during the Taft administration, has advanced the proposal that federal government funds for this purpose be withheld from states which are not co-operating in upholding the dry laws.

His plan, he believes, would inspire "a greater sense of personal and local responsibility" under the concurrent power for enforcement granted in the "Eighteenth Amendment" and would have an immediate and electrical effect all over the country.

"It means," he explained in a radio address broadcast under the auspices of the District of Columbia.

EMHOUSE

EMHOUSE, June 27.—(SP)—Winding up the month of June in which there has been plenty of fair weather and little rain, one can say that in the community of Emhouse there has been lots of work completed.

The actual construction of the school building has begun and in the next few months Emhouse will be equipped with one of the finest and most modern of school buildings of Navarro county.

On Tuesday of last week Mrs. R. H. Harris and daughters, Robie and Locke, were visitors in Wortham.

Mrs. S. H. D. Hook of Corsicana spent the latter part of the week in Emhouse, visiting in the home of her sister, Mrs. Nick Parrish.

Mr. and Mrs. G. G. Owen have returned from their vacation spent in Oklahoma City.

T. Oliver was a visitor in Emhouse Thursday of last week.

On June 22, Saturday at 2:30 p. m. Mr. J. R. Collins, long time resident of Emhouse, died, after an illness of a few weeks. He was buried in Rice on Sunday, the funeral service being held in the Methodist church by Rev. Bowman, assisted by Rev. Caldwell. Surviving him are his wife, Mrs. Collins, and three daughters, Mrs. Johnnie Bonner of Emhouse, Mrs. Howard Thomas, Ennis, Mrs. Will Neron, Chilcota, Oklahoma, and Mrs. G. W. Gable, of Tulsa, Oklahoma.

Miss Mary Price, who teaches in the grammar school at Emhouse, and now in school at Denton was a visitor in the home of Mr. and Mrs. Jerry Worsham last week end.

Mr. and Mrs. Ray Maggard of Ennis visited in the home of his parents Mr. and Mrs. Dave Maggard last week.

Mr. and Mrs. Irie Stein of Barry spent Sunday in the home of their son, Mr. and Mrs. Everidge Stein. Miss Johnnie Stein accompanied them.

Grandpa Miller, of Malakoff is visiting in the home of his daughter, Mrs. W. C. Bristow.

Mr. and Mrs. Lee Hern and Pete Hook of Corsicana were visitors in Emhouse Sunday night.

W. C. O'Neal was in Corsicana Saturday afternoon.

Mr. and Mrs. W. C. Harrel and family have over at Malakoff Sunday afternoon. Miss Maude Harrel returned for a visit with them.

John Maggard Jr. of Corsicana visited his parents Mr. and Mrs. John Maggard Sunday.

Clint Tinkle of Dallas spent the week end in Emhouse.

T. M. Tinkle left Sunday for Clarendon, Texas, where he will spend his vacation with his daughter, Miss Oda Kate O'Neal was home last week-end.

Mrs. Alton Jackson is spending the week visiting her parents, Mr. and Mrs. Dick Dixon.

Mrs. Will Sharpley entertained the Missionary Society of the First Baptist church with a social in her home Monday afternoon at 3 o'clock. Refreshments of ice cream and cake were served to twelve

have lieutenants and hide away," Brookhart interposed.

Leonard Withington, director of organization for the republicans, whose salary is \$10,000 a year, according to Nolte, told the committee that only \$26,000 of the \$100,000 so far had been promised.

"We have \$2,000 in cash, he said.

bia Sons of the American Revolution, "merely that where the people of any one of the states show, by their legislation and administration, that they want the bootlegger or the saloon, the United States government will let them enjoy the company of their choice.

"Almost immediately, or as soon as they realize that the problem has been squarely put up to them, they would set about to solve it. Those states would be forced to do one or two things: Either, first, they would try to induce other states to join them in repealing the Eighteenth Amendment; or, second, finding themselves in the clutches of a law which they could not repeal, and of an outlaw which they could not regulate, they would conclude to enforce the mandate of the constitution."

PURDON

PURDON, June 27.—(SP)—Mr. and Mrs. W. A. Chines of Mart visited the week-end with Mrs. W. R. Russell.

J. J. Milton and family, and R. Crenshaw and family of Corsicana, spent Sunday here with R. H. Harrison and family.

Mrs. C. C. Wilson left Friday for a visit with her daughters at Alma and Electra.

Little Miss Esperance McElwraith of Dothan came in Sunday for a visit with her grand parents Mr. and Mrs. M. V. McElwraith.

Mr. and Mrs. A. R. Hauff and Miss Fay Merrell spent the week-end in Tyler.

Mr. and Mrs. Joe Joyce of Lamessa are spending this week with Mrs. Joyce's mother, Mrs. J. L. Balentine.

Mrs. W. H. Whitten and daughter, Miss Iven, of Corsicana, were here Saturday.

Elva Mae and Geline Spence left Saturday for Clyde, to visit their grandparents.

Mrs. L. C. Paston returned home Sunday from Kerens, where she spent a few days visiting her parents.

Miss Audie Deere of Dallas came in Saturday for a visit with Mrs. W. J. Howard.

Miss Ada Patterson came home Tuesday from Waco, where she has been visiting for the past two weeks.

Mrs. Ross Oswald of Waco, is spending the week with Mr. and Mrs. Jake Oswald.

Rev. Cox, pastor of the Methodist church here, is conducting a revival meeting here this week.

Sig Powell and family of Dawson were here Sunday.

Mrs. Perry Farmer and children are spending the week in Fort Worth.

T. L. Rogers and family, Leo Tickle and wife, were in Waco Sunday.

Little Winifred Spence is spending the week in Fort Worth.

Mrs. B. F. Payne and sons, B. F. and Charles left Tuesday of this week to visit relatives in North Zulch, Texas. From North Zulch they will go to Kennedy to spend the latter part of their vacation in the home of her daughter, Mrs. LeRoy Turner.

Miss Louise Richards is visiting her sister, Mrs. Harry Richards of Corsicana this week.

Mr. M. Montgomery returned to Dallas Tuesday morning to be with his daughter, Linnie Kate, who underwent a serious operation. She was reported to be doing as well as could be expected when Dr. Bristow left after the operation, for Emhouse.

Irie Stokes is on the sick list this week.

Mrs. Rose Hart, Miss Mary Alice Hart and Miss Eula Brown were visitors in Corsicana Tuesday.

The Baptist Missionary Society will give an ice cream supper Saturday night in the brick garage. Everyone is invited to attend. Home-made cream and cake will be served.

Ice Cream Supper

There will be an ice cream supper at White's Chapel Friday night June 28th, benefit of the baseball club. Everybody invited, and assured a good time.

SIX HOURS GIVEN OVER TO LAWYERS IN ROBISON CASE

(Continued From Page 1)

public officer cannot be impeached for acts committed prior to his last election.

"Mr. Robison's guilt of innocence should be fixed according to the law and not the prejudices of me," Mr. Smith argued. "As a matter of law the evidence in this case is not sufficient to justify impeachment."

"They criticize the people of West Texas for contributing their refund checks in the reappraisal fund to Mr. Robison," Smith said. "Out of the goodness of their hearts, when they saw Mr. Robison in dire straits through illness and financial reverses they came to his rescue and helped him, as they always do any one they know to be in such circumstances."

AUSTIN, June 27.—(AP)—Six hours of oratory, to be divided between five attorneys, was begun today in the house of representatives prior to taking a vote on whether charges of impeachment shall be preferred against J. T. Robison, commissioner of the general land office.

It will be late today before a vote can be taken. Since Robert B. Allen, Sr., of Dallas, attorney for proponents, did not begin the opening address until 11 a. m.

C. T. Freeman of Sherman, will open for the proponents. Each side will have three hours. E. P. Smith of Austin, will open for Mr. Robison. He will be followed by former Senator Lloyd Price of Fort Worth and Dayton Moses of Fort Worth will close for the land commissioner.

After the attorneys have discussed the testimony, members will be privileged to debate his innocence or guilt.

ing the week in Corsicana with her uncle and family.

The W. M. S. met in a social meeting with Mrs. J. C. Henderson as hostess. The devotional was conducted by Mrs. E. E. Coles.

The subject being, "The call of youth." Mrs. Earl Darden gave a very interesting talk on "Rebuilding a Family." Mrs. Cox favored the society with a humorous reading. A short business session was held after which followed the social hour, which was enjoyed by all present.

Flowers, Shrubs and Trees

HERBACEOUS PERENNIALS FROM SEED

By D. VICTOR Lumsden (U. S. Department of Agriculture)

Herbaceous perennials are grown from seed as easily as most annuals.

The Shasta daisy, feverfew, columbine, Canterbury bell, platycodon, sweet-william, phlox, delphinium, hollyhock, blanket flower and rudbeckia are a few of the flowers which come readily from seed and furnish a wealth of beauty in the garden.

Many obtain a good effect by sowing the seeds in the flower border where the plants are to bloom. If one has a seed bed, cold frame or hotbed in which to start the seeds, so much the better.

From the time the soil warms up in the spring until late summer these seeds can be sown, but early summer sowing usually gives the best results. Seeds sown at this time produce good-sized plants by the time winter sets in. Blooms come the next summer.

Start the seed in a light, mellow, well pulverized soil mixed with one-fourth its volume of thoroughly decomposed manure. There is no definite rule as to the depth at which all seeds should be sown, but a covering four times the smallest diameter of the seeds is all right in most cases.

After they are covered, the earth should be firmly over them to take arrested two men on charges of drunkenness Monday evening.

COURTHOUSE NEWS.

County Court.

The will of Mrs. Mary J. Wilson, deceased, was admitted to probate by Judge Clay Nash in county court Monday. The probate of the will was contested and notice of appeal to the district court was made.

Commissioners' Court.

The Navarro county commissioners' court was still sitting as a board of equalization Tuesday morning. C. L. Jester, president of the Corsicana chamber of commerce, and good roads enthusiast, appeared before the commissioners Monday afternoon in the interest of the proposed new bridge on Highway 31 between Corsicana and Athens, over the Trinity river. The state highway commission has written the commissioners' courts of Navarro and Henderson counties that if these two counties will appropriate \$25,000 each toward the construction, cost a new bridge will be built. The local commissioners favor a new bridge, but do not know at the present time whether the finances of the county will allow such an expenditure.

Sheriff's Office.

Deputy Sheriffs V. McMurray, J. M. Westbrook and Walter Hayes

DAWES APPEARED IN FULL EVENING DRESS AT COURT FUNCTION

LONDON, June 27.—(AP)—Ambassador Charles G. Dawes, attending his first court last evening, appeared in sombre black evening dress. His predecessors, George Harvey, Alanson Houghton and others, on such occasions wore the silk knee breeches and slippers demanded by English custom.

The general and Mrs. Dawes paid their respects to Queen Mary and others in the royal circle, after which Mrs. Dawes introduced eight American women to her majesty.

Queen Mary wore a green and gold, with a diamond crown, the famous diamonds known as the "Lesser stars of Africa," and the order of the garter. The Prince of Wales, in the scarlet uniform of a colonel of the Welsh guards, walked with his mother, taking the place of King George, whose illness prevented attendance.

Notice

There will be an ice cream supper on the lawn of the Eleventh Avenue Baptist church, Saturday night, June 29. Given by the ladies in behalf of the church.

Soldier Killed Premature Blast of Shell Today

SALT LAKE CITY, June 27.—(AP)—Private Daniel J. Midegley, of the 145th field artillery, Utah national guard, was killed, and three other enlisted men were injured when the premature explosion of a shell blew the breech from a French 75 in artillery practice at a summer encampment at Jordan Narrows, near here today.

Oklahoma Democrats Force Through Bill For Party Runoff

OKLAHOMA CITY, June 27.—(AP)—Shattering the republican-democratic coalition which was responsible for the impeachment of Gov. Henry S. Johnston and three members of the state supreme court early this year, democratic members of the Oklahoma house of representatives reunited today to force through final enactment a party primary run-off election bill. The bill was passed 55 to 38.

WHAT NEXT, PLEASE?

TRENTON, N. J., June 27.—(AP)—For operating an automobile while he was under the influence of snuff John W. Horton of Newark has lost his license.

CONTRACT AWARDED FOR SUNDAY SCHOOL ANNEX BUILDING

WORK ON ADDITION TO THIRD AVENUE PRESBYTER- IAN TO BEGIN AT ONCE

Haslam Brothers, general contractors, was awarded the contract for the Third Avenue Presbyterian two-story Sunday school annex, by the building committee at the church Monday night. Work on the \$18,000 building will begin at once. The new building will match the design of the present church, and will embody all that is modern in church buildings. When completed and fully equipped the building will represent an expenditure of approximately \$30,000.

The contract calls for raising the present tower and putting a new roof on the church. On the first floor will be the parlor, nursery, beginners and primary assembly rooms, primary and young people's class rooms, and kitchen. The second floor will have two senior class rooms, pastor's study, and junior and intermediate assembly rooms with adjoining classrooms.

The annex will be 30x80 feet, and built the west side of the church, facing north on Third Avenue. H. O. Blanding is architect for the new building.

NEW FLYING CLUB

HICKSVILLE, N. Y., June 25.—(AP)—The Long Island Aviation country club, with its own clubhouse, hangars and field, opens Saturday. Among the members are Colonel Lindbergh, Amelia Earhart, Countess Folke Bernadotte, Douglas Fairbanks, Joseph Medill Patterson, and Governor John H. Trumbull of Connecticut.

ALLEGED SLAYER OF FATHER IN NAVARRO JAIL; TRIAL HERE

WORK ON ADDITION TO THIRD AVENUE PRESBYTER- IAN TO BEGIN AT ONCE

Lloyd Davidson, of Limestone county, has been brought to the Navarro county jail by Groesbeck officers where he will be kept until his trial in the district court here on a complaint for murder in connection with the death of his father near Coalgate recently.

Davidson was recently indicted by the Limestone county grand jury for murder in two cases in connection with the alleged clubbing to death of his father and step-mother while they slept at their farm home. It is also alleged that the house was fired and burned over the bodies of the elder Davidson and wife.

On his recent trial at Groesbeck on the murder indictment for the alleged slaying of Mrs. Davidson, Lloyd Davidson was found guilty and given ninety-nine years in the penitentiary. When the other trial came up recently, a change of venue was granted and the case was transferred to the thirteenth judicial district court here and will be tried before District Judge Hawkins Scarborough.

"ACCIDENT" CHAMPION

ATLANTA, June 25.—(AP)—H. P. Cheshire seems to be a champion of some sort. Five times he has been bitten by snakes, he has had five operations because of an injury to his appendix. Once his skull was fractured in an automobile accident. An exploding blow torch on another occasion burned him severely. Now he is in a hospital again. He shot himself accidentally in the left leg.

NEW LABOR CABINET CONSIDERING EMPIRE AFFAIRS AT MEETING

WORK ON ADDITION TO THIRD AVENUE PRESBYTER- IAN TO BEGIN AT ONCE

LONDON, June 25.—(AP)—Important negotiations by the new labor government on empire affairs, including the question of resumption of diplomatic relations with Soviet Russia, were announced today to be in progress on labor's first day of parliamentary life.

The government has communicated with all the dominions in an effort to gain agreement on signing of the optional clause of the world court statutes, under which questions of international law would be submitted to the permanent court of international justice at the Hague.

Good Rains Fall In Wills Point Sector

WORK ON ADDITION TO THIRD AVENUE PRESBYTER- IAN TO BEGIN AT ONCE

WILLS POINT, June 25.—(AP)—More than inch of rain fell here Monday afternoon. It was the first rain in three weeks and was badly needed. All crops will be benefited and it is hoped the heat wave will be broken.

Corn was needing rain badly and has already been injured by the dry weather. Older cotton was doing well but some had just been planted and needed rain to bring it up to a stand.

ONE MAN INDICTED; AWAITING REPORT OF CHEMIST ON SECOND

WORK ON ADDITION TO THIRD AVENUE PRESBYTER- IAN TO BEGIN AT ONCE

TEXARKANA, June 25.—(AP)—County authorities prepared today to try one man on charges he poisoned his wife while awaiting word from chemists in Austin which might indict another man on similar charges.

Armed with an alleged confession from Ocie Nix, 22 year old Bowie county farmer, that he poisoned his 17 year old wife, the state prepared to ask the death penalty in the trial to open Thursday.

Nix was hidden in the Lamar county jail at Paris, but was returned to the county jail at Boston last night. He took out \$1,400 insurance on his wife's life three weeks before she died, and the state expected to point to this as a motive.

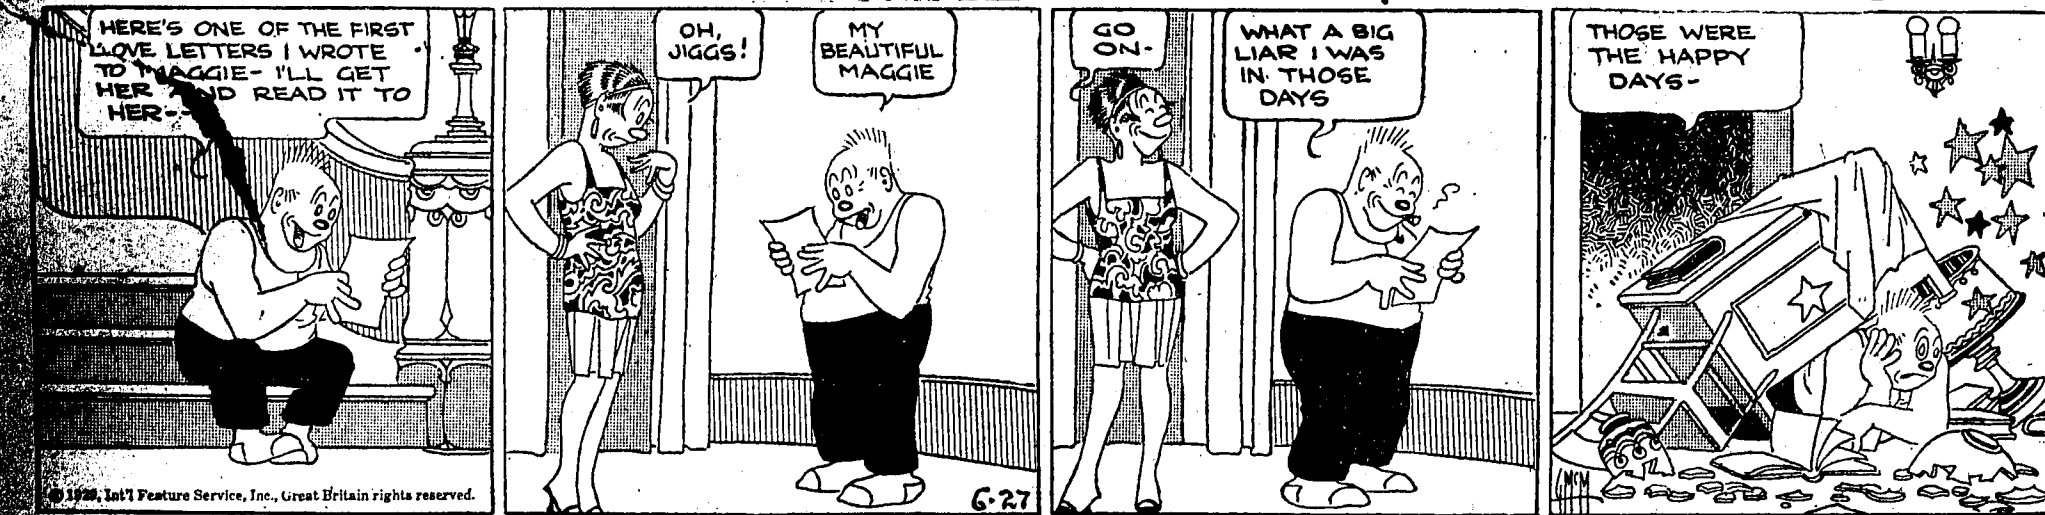

In the same jail, a 24 year old Bowie county farmer awaited an analysis of organs from his wife's body after she had died suddenly, without treatment from a physician, and had been buried hurriedly. He, too, was known to have insured his wife's life shortly before her death.

AVIATORS SEEKING NEW LAURELS FOR FEATS AIRMANSHP

(Continued from Page 1)

ing his third attempt at a refueling endurance record. He took off at 7:32 o'clock last night. He must remain in the air one hour longer than the record of 172 hours, 32 minutes, and one second, set May 26 by R. L. Robbins and James Kelly in the plane Fort Worth.

Jensen carried 165 gallons of gasoline at the take off, enough to carry the plane through the night, and planned to refuel in the air twice a day through a pipeline from a plane flying overhead. His wife, an auburn-haired young woman of 26, holds a private pilot's license and arranged to take her turn at the controls.

**Nearing 100 Hours
In Refueling Test**

MINNEAPOLIS, June 27.—(P)—Nearing the 100 hour mark in its effort to set a new world's record refueling flight for airplanes, the plane piloted by Thorvald Johnson and Owen Haughland, today flew through rain storms which had begun early in the night.

The plane passed the 93 hour mark this morning, officials observing the progress of the flight at Wood Chamberlain airport here, reported the single motor appeared to be functioning perfectly. With more than half the necessary time elapsed toward setting a new record, the Miss Minneapolis last night gave up its system of lap flying temporarily. Since the start of the event at 5 a. m. last Sunday, the pilots have sent the ship back and forth over an eighty-mile course between Minneapolis, Hastings, and Northfield.

**Fliers Balked in
New Flight Attempt**

WASHINGTON, June 27.—(P)—The Mexican government has granted permission to Lieut. W. T. Larsen and Lawrence J. Carr, U. S. army aviators, to fly over Mexican territory on their projected flight to the Panama Canal Zone, war department officials said today.

SAN ANTONIO, June 27.—(P)—Two Kelly Field fliers are attempting to fly a service plane from San Antonio to France Field, Canal Zone, and return will end their flight at Washington unless the Mexican government relents in its refusal to permit them to fly across the Southern republic. It was announced at Kelly Field today.

Lieutenants Westside T. Larsen and Lawrence J. Carr, who took off from the local field Wednesday on the 6,641 mile flight in an A-3 attack plane were at Selfridge field, Mich., this morning and were expected to proceed directly to Washington where they will confer with Major General James E. Fechet, chief of the air corps regarding the attitude of the Mexican government.

No reasons for the refusal were given in the telegram which was received at the field here and the fliers were ordered to proceed to Washington. The flight was authorized by General Fechet several days ago.

Southern Cross Hops Off.
SYDNEY, N. S. W., June 27.—(P)—Captain Charles Kingsford Smith and his three companions, took off in the Southern Cross from Derby, Western Australia, today for Singapore, Straits Settlements, en route to England. The distance is about 1,650 miles, over the Indian Ocean, Java and the Java Sea.

The Southern Cross left here Tuesday, completing the first lap of its English flight to Derby Wednesday. It was hoped to better Bert Hinkler's record of 15 days.

Another Non-Stop Effort.
MARSHALL, Mo., June 27.—(P)—Barney Zimmerley, claimant of the American altitude record for light airplanes, will hop off from here tomorrow for Brownsville, Texas, from where he expects to begin an attempted non-stop flight to Winnipeg, Canada.

The pilot expects to stop on his way to Brownsville at Dallas and San Antonio, Texas. At San Antonio barographs will be installed. The time of the start from Brownsville will depend on weather conditions.

Zimmerley plans to begin the non-stop flight with 98 gallons of gasoline and five gallons of oil. **Believe Hawks Sighted.**

ST. LOUIS, June 27.—(P)—George E. Manning, ground school instructor at Parks airport, East St. Louis, reported he sighted an airplane of the type being flown by Captain Frank M. Hawks on his attempted cross country round trip flight, at an altitude of about 8,000 feet over St. Louis at 10 a. m., today.

And They Talk of Small Town Hicks In Metropolises

CHICAGO, June 27.—(P)—Barry Till lived until yesterday without having heard of the handkerchief game.

Barry met some nice fellows who told him they were taking up a collection to buy Cardinal Mundelein a present. Right away they wanted Till to buy the present because they said he had such good taste.

As a matter of precaution they asked him to put up some money to show he could be trusted, so he handed them \$10. They took the money, tied it in a handkerchief with their own, and then, apparently convinced of Till's trustworthiness, handed the handkerchief back to him and sent him over to a drugstore to get some headache medicine.

Today Barry Till had the headache and no \$10 to buy medicine. "They made a mistake," I guess," Till told police. "They gave me back the wrong handkerchief."

PERSONAL

H. I. McAfee, and Hugh Dechard McAfee, who have been in Dallas since Monday, returned to Corsicana Thursday morning.

Jarvis Whitesell, F. N. Drane, and W. T. McElwain, left Corsicana Thursday morning for Dallas. Mr. Whitesell and Mr. Drane will attend the Interurban directors meeting while in Dallas.

R. J. Jackson, chairman of the Chamber of Commerce highway committee, and W. Roy Christian, secretary of the chamber, were in Fort Worth Thursday on road matters.

Mrs. E. H. Church of San Antonio, a pioneer resident of Corsicana and Navarro county until a few years ago, will arrive here at an early hour Friday morning to visit Mrs. L. E. Hervey and other friends.

J. M. Parrish of Emhouse was here on business Thursday afternoon.

Charlie Reagan and J. J. Smith of Roane were Corsicana business visitors Thursday.

W. S. Ware of Richland spent Thursday in the city attending to business.

Hawkins Scarborough, judge of the thirteenth judicial district court, is spending this week in Mineral Wells.

Mr. and Mrs. Fred Hoffman who have been ill at their home for the past week, are still confined to their bed, but are slowly improving.

REJECT NO CONFIDENCE
BERLIN, June 27.—(P)—The Reichstag late today rejected a vote of no confidence in Foreign Minister Stresemann.

SENATE REDUCES STATE CLAIMS AND PASSES MEASURE

AUSTIN, June 27.—(P)—After lopping \$66,265 from claims made against the state, represented largely by refunds on illegally collected taxes, the senate today passed a bill allowing \$421,873 to cover accounts approved after investigations.

One of the items eliminated at the instance of Senator Tom DeBerry, Bogata, was a claim of heirs of Thomas F. McKinney, Galveston, who was purported to have been due \$16,842 from the state for funds advanced when Texas was a republic.

Twenty claims made by farmers of Brewster county who were not allowed to raise cotton in 1928 on account of the pink boll worm quarantine, were reduced from \$24,896 to \$12,448.

**Woman Asks Million
And Half Heart Balm**

TULSA, Okla., June 27.—(P)—A suit claiming \$1,500,000 damages was placed on file in district court here Wednesday by a woman giving the name of Muriel C. Standley, against R. A. Josey, a wealthy Oklahoma oil man. She said Mr. Josey had promised to marry her and rejected what she said has been her association with him at intervals since 1926.

TEXAS NETTER WINS
HAVERFORD, Pa., June 27.—(P)—Berkeley Bell, University of Texas, seeded player number 3, today defeated Emmett Pare, Georgetown University, seeded player number 8, in a quarter-final match for the Intercollegiate lawn tennis championships by scores of 13-11, 6-1.

CONVICT SLAYS ANOTHER
LANSHING, Kan., June 27.—(P)—George W. Taylor, 34, an inmate of the state penitentiary serving a term from Wyandotte county, died here last night from knife wounds inflicted Tuesday night by Acie Bennett, 30, a life termer from Wichita, Kansas.

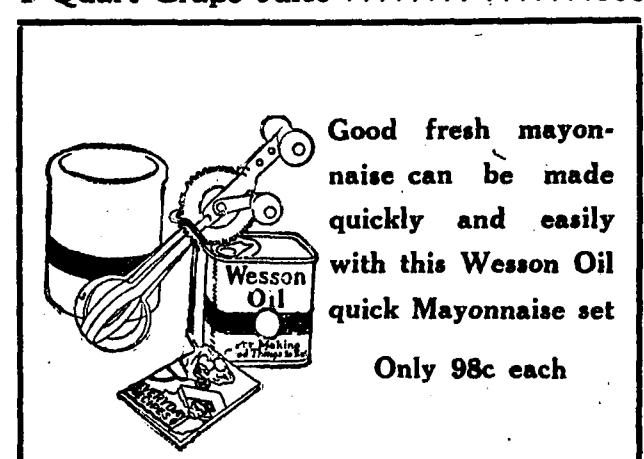

BLACK TERRORS CAUGHT
NEW ORLEANS, June 27.—(P)—Two negro perpetrators of a region of terror in New Orleans have confessed to criminally attacking some ten young women and robbery of their male escorts.

The negroes, William Ervin Virsels, 26, and Edward McKay, 22, confessed after hours of grilling.
